EXCITED DEBATE ON TARIFF BILL

Wrangle Was Vociferous and Gesticulations Marked Colloquy

SPEAKER CLARK ON FLOOR

All Republican Amendments to Democratic Bill Are Promptly Voted Down—Accused of Being Hypocrites

Washington, April 29.—Excited debate and heated wrangle today marked the beginning of the reading of the Democratic tariff bill in the House for amendment. Progress on the perfection of the measure was slow but the talk was vociferous and on one occasion brought Speaker Clark on the floor with a vigorous speech.

All day the Republicans offered amendments to the various paragraphs in the chemical schedule and every amendment was voted down by the big Democratic majority. Several minor amendments offered by the Ways and Means Committee to correct the phraseology of the bill were adopted.

Most of the talk of the day turned on the records of the Democratic and Republican sides of the House on the question of creating a tariff commission. The Republicans led by Representative Mann, of Illinois, began their attacks on the various provisions of the first schedule of the bill, the chemical schedule, by declaring that the "weaknesses" in the rates showed the need of the investigations of a tariff board. Representative Underwood in reply declared that the Democrats had provided the bureau of foreign and domestic commerce in the Department of Commerce and that the failure of the Taft administration to vitalize that bureau with sufficient appropriations had prevented its doing the work of tariff investigation.

Representative Gardner, of Massachusetts, said Representative Underwood and other Democrats had voted for the tariff commission in the Sixty-first Congress, when the Republicans were in control and urged that they support the Republican proposition now. Then Representative Murdock, the Progressive leader, touched off the fireworks. He declared that both Republicans and Democrats were opposed to the tariff commission scheme and recalled the last day of the Sixty-first Congress and Uncle Joe Cannon's final appearance at the Speaker's desk when the tariff commission bill was withdrawn by the Republicans in the face of a filibuster led by Representative Fitzgerald, of New York.

"The Republicans in this chamber then," shouted Mr. Murdock, "like the Republicans in this chamber now, were only pretending to be for a tariff commission. They had their chance to write that bill into law then and failed. They will never have another chance."

The Republicans grew excited and Representative Gardner shouted there was no foundation for Mr. Murdock's charge that the "Republican leaders were in a conspiracy to defeat the tariff commission bill." Gesticulating wildly, Mr. Gardner demanded the opinion of Representative Sherley, of Kentucky, as to the truth of the charge. Mr. Sherley said he believed many of the Republicans opposed the bill. Then Representative Gardner, shaking a finger at Speaker Clark, demanded to know whether he believed the charge. The Speaker strode to the center of the well of the House and shouted, "My judgment is that there never was a Republican leader in this House really in favor of a tariff commission."

Mr. Gardner sat down and the Speaker went on. He declared he was against a tariff commission, reporting to and responsible to the President. "It is the House that should have the information."

The Speaker went into detail about the defeat of the tariff commission bill in the Sixty-first Congress, explaining that the Democrats refused to follow him and Representative Underwood.

"They rolled us a fare-you-well," he declared, "and the Republicans were standing back and consenting like Saul at the stoning of Peter. They actually rolled up a majority against Underwood and myself, but it was the first time and the last time they ever did it. The only reason was they caught us napping."

Representative Gardner again tried to pin the Speaker down to his position on the conspiracy charge.

"I think the gentleman from New York, Mr. Payne, was honest on that day, in trying to get that bill through," said the Speaker.

"But was there a conspiracy on that day?" demanded Mr. Gardner.

"I cannot tell," said the Speaker, "because I was not in it if there was one."

The House roared with laughter. The Speaker concluded with the declaration that a non-partisan tariff board was an impossibility and that he was in favor of giving the Ways and Means Committee itself all of the expert help it needed to ascertain the facts as to the tariff.

Reading of the chemical schedule was completed shortly after 6 o'clock and the House then recessed until 7:30.

When the schedule on earthenware, the second schedule of the bill, was taken up at the night session, Representative Dixon, of Indiana, who has been in charge of the preparation of the schedule in the Ways and Means Committee, took his place at the right hand of Majority Leader Underwood and led the debate. The Republicans made ineffectual attempts to increase the rates in the bill on Portland cement, gypsum, lime and other mineral products. Several minor committee amendments correcting phraseology were incorporated in the bill.

GIRL LONGED FOR HOME

Miss Romona B... Tired of School and Was ... and Desperate—Riches ... Nothing to Her.

Library of Congress

New York, April 29.—A girl longing for a home was 17-year-old Romona Borden, when she fled from a sanitarium in Pompton, N. J., last week, according to her own statement today. On Saturday she was restored to her father, Gail Borden, New York millionaire condensed milk manufacturer, in Boston, after a search by detectives in many States.

"People say I am rich, that my parents are rich," the girl said in explaining her flight. "I guess that is true but that doesn't mean that I can be happy. The daughters of rich people are not always happy. The trouble is I haven't had a home for many, many years. I have been sent from one school to another and then to another one, but none was home. What I have wanted so badly was a home. I have not had it."

The girl will have a home with her mother henceforth. Tomorrow, said Mrs. Borden today, she will start with her daughter for Los Angeles.

Romona declared that she had trouble with the sanitarium nurse who attended her. "I just got desperate and wired my mother to come and get me," she said.

STRIKE-BREAKERS FORTIFIED

Asheville Authorities Called on to Control Mob

Asheville, N. C., April 29.—A demand for adequate protection for its strike-breakers and property, made to the city and county authorities by the Asheville Power & Light Company; a reply by the mayor that he and the police stood ready to meet all demands made upon them, and an announcement by the street car company tonight that it would operate its cars tomorrow with experienced men, were the chief developments of this, the fourth day of the strike of motormen and conductors on the local street railway system. The demand of the company was based on its rights as a law-abiding taxpayer and its desire to conduct a lawful business.

Following the request of the street car company, a special session of the aldermanic board resulted in the issuance of orders to the chief of police and the sheriff to swear in extra patrolmen and deputies. These officials were given to understand that it was their duty to protect the men and property of the street car company from mob violence.

It is reported on apparently good authority that 50 strike-breakers are already quartered in the company's car barns where a week's provisions have been stored. This afternoon a barricade 14 feet high was erected across the car yards, only the space of a single track being left open. The company officials stated tonight that while they are not anticipating any trouble from mobs, they will be fully prepared for any emergency.

The strike situation is unchanged, both strikers and the company maintaining their original attitude. Several offers of mediation and arbitration have been made by interested citizens without result. Union officials state that they are still willing and anxious to submit their claims to a board of arbitration.

Beyond small gatherings of the curious and idle, the streets of the city are comparatively quiet tonight and citizens of sober judgment do not anticipate any trouble tomorrow when the street car company operates its cars with strike-breakers.

MURDER MYSTERY CLEARED

Convict Confesses to Murder Eight Years Ago

New York, April 29.—Through a statement made today by a prisoner on Blackwell's Island, Richard F. Dunbar, the police are hopeful of clearing up an eight-year-old murder mystery, the killing of Mattie Hackett, a young girl of Kennebec county, Maine, in August, 1905. Dunbar, the police say, implicated two other men.

Only a few months ago, after a lapse of years, during which the crime had remained unsolved, a Mrs. Redmond was tried for the murder but acquitted. The fear that other innocent persons might be accused as well as the fact that he had been haunted by visions of the victim were the reasons, the police say, Dunbar assigned for his statement.

The police quote Dunbar as saying he became friendly with a young man at Redfield, Maine, who wanted to be "rid" of the Hackett girl. With this friend and a third man Dunbar said he went to the Hackett home and while one of the party, on some pretext got the girl's father out of the house, the others lured her to a lonely spot and strangled her with a rope.

ATTENDED SUFFRAGIST MEETING

Mrs. Belmont and Mrs. Catt at London Gathering.

London, April 29.—Mrs. O. H. P. Belmont and Mrs. Carrie Chapman Catt, of New York, occupied front seats on the platform at the meeting of the Women's Social and Political Union, at Kings Way Hall tonight, to protest against the forcible feeding of imprisoned suffragists. Neither of the American women spoke, but showed approval of the speeches by unstinted applause.

The Duchess of Marlborough, Mrs. Belmont's daughter, who was expected to be present, did not appear. At the close of the meeting Mrs. Belmont contributed $50 to the "war chest", which, by her request, was "from America".

Israel Sangwill, the author, was the principal speaker. He denounced forcible feeding as barbarous, the "cat and mouse" bill as an abomination and the Liberal ministry as a pack of back-boneless mongrels.

Resolutions denouncing forcible feeding were carried with great enthusiasm by the large audience.

Paris, April 29.—Prof. Arsene D'Arzonval, of the college of France, has discovered a new explosive said to be ten times more powerful that dynamite. The explosive is composed of a combination of lamp black and liquified gas. Experiments in quarries near Paris have given remarkable results.

CARRIERS DECLINE TO ADJUST RATES

Will Not Grant Carolina Shippers Proportional Tariffs With Virginia.

THE CONFERENCE IN RALEIGH

Governor Threatens Extra Session of Legislature Within 30 Days—Recess Until Today—Business Men Heard

Raleigh, N. C., April 29.—Declaring that there is no power which he will not exercise to bring about better freight rates in North Carolina, Governor Craig this afternoon adjourned until tomorrow the third freight rate conference between the carriers and a legislative commission pending a proposition from the railroads.

Governor Craig was besought by telegrams and delegates to call an extra session of the General Assembly to assert the State's sovereignty in the demand for lower rates. An adjourned meeting from April 15th had been ordered in which the carriers were to present a proposition which was to form the basis of a rate readjustment. This morning they offered a document of 48 pages giving reasons for declinig to grant rates to North Carolina merchants proportional with Virginia. To do this the carriers declared, "would revolutionize the rates, work irreparable injury and force many railroads into bankruptcy."

The charges brought by North Carolina shippers, one hundred of whom were present, are that freight is hauled through North Carolina into Virginia points and re-shipped to North Carolina consumers more cheaply than the local merchants can supply the home trade. One witness declared a candy manufacturer had left North Carolina because he saved $10,000 a year in freight on glucose in the Virginia city. The shippers are demanding an extra session within 30 days. Much feeling is shown.

The Hearing in Detail

Raleigh, N. C., April 29.—After the first day of a third conference between the railroad officials and the legislative commission for the elimination of freight rate discriminations against North Carolina, they seem to be little, if any, nearer an agreement, "except to agree to disagree," than they were at the beginning. A recess was taken tonight to noon Wednesday when the railroad officials are to come in with a written reply to the reply of the commission to a lengthy document, embracing 48 typewritten pages setting out alleged fallacies in the counter proposition submitted by the commission at the last conference, April 19th, to the proposal of the railroad people that the commission rejected.

There are 50 shippers here from Charlotte and large numbers from Greensboro, Winston-Salem, Durham, Wilmington and other points and the feeling manifested is intense, with vigorous demands that in the event the railroads do not come across at once with some really reasonable and considerable reduction, the Governor lose no time in convening the Legislature for the specific purpose of dealing with the railroads in this matter.

Governor Craig, in announcing the agreement of the commission for the railroad officials to have the time until noon tomorrow to prepare answer to the commission's latest pronouncement, made it plain that he will not hesitate to assemble the Legislature. He said it is plain that North Carolina is being grossly discriminated against and the people demanded and must have relief. He would go to the limit of his power to accomplish this. He, too, would regret war between the people and the railroads but such a war was preferable to the present intolerable conditions. He believed that while the reductions that the commission is demanding would mean temporary losses to the railroads they would soon develop such an increased business in North Carolina that the ultimate benefit to the roads would far outweigh temporary losses. Under present conditions this State seems to be "forbidden territory" for the development of industries. To relieve these conditions if war with the railroads must come, let it come, the responsibility would be with the railroads themselves, he said.

Just before the Governor delivered his warninig to the railroads in giving them until Wednesday noon to show a real purpose to grant relief, there were fiery speeches by a number of citizens representing shipping interests, they being invited to express their views for the benefit of the railroad officials.

E. R. Preston, speaking for Charlotte shippers, declared that they considered that there was a limit to negotiations of this sort and they felt that in this case the limit was about reached. He and those he represented were willing to sit up all night and thresh the matter out if there was hope of agreement, but he feared there was none. Charlotte shippers, he said, want an extra session of the Legislature called for the special purpose of dealing with the freight situation. It would not do to wait for the constitutional amendment session as there is every indication that a great flood of amendments are to be offered for the constitution and freight matters could not be considered within the 20 days' time limit of that session. The people, he was sure, would approve of a special session for the specific purpose of dealing with the railroads.

C. H. Ireland, wholesaler of Greensboro, compared freight Traffic Manager Green, of the Southern, to a Christian Science healer, who would come in and in the face of overwhelming evidence of freight discrimination and injustice, insist that there was nothing wrong. He said, the time is at hand when, "if the railroads don't

(Continued on Page Six.)

CLUES TO ATLANTA MURDER

Detectives Still at Loss to Discover Slayer of Girl—Strong Circumstances Point to Negro Janitor.

Atlanta, Ga., April 29.—Efforts of the police to establish the identity of the person or persons who killed 15-year-old Mary Phagan and placed her body in the basement of the National Pencil Company's factory here, where it was discovered early Sunday morning, have so far been futile and tonight the case is as much of a mystery as ever.

Three events of interest in connection with the case occurred this afternoon. First came the arrest of Leo M. Frank, superintendent of the Pencil Company, on a blanket charge of suspicion. Frank is allowed the freedom of the police station, having employed a policeman as special guard.

The second development of the afternoon was the finding by detectives of a blood-stained shirt at the home of the negro Newt Lee, night watchman, who reported the discovery of the girl's body to the police. It is said that Lee admitted owning the garment, but claimed not to have seen it for more than a year. The police contend that the blood stains are comparatively fresh. In support of the theory that the negro carried the body into the basement, detectives point out that the stains are on the back of the shirt.

Equally worthy of note was the transfer, late this afternoon, on a writ of habeas corpus of J. M. Gant, the book-keeper, charged with the murder, to the custody of the sheriff, and his removal to the coroner's jail. It was alleged by Gant's lawyer that his client was being subjected to annoying and harrassing exhibitions at the police station from which he would be relieved if under charge of the sheriff.

Handwriting experts who made microscopic examination of the notes found near the murdered girl's body, and samples of writing by the negro Lee, this afternoon expressed their conviction that the watchman is the author of the incoherent missives. What bearing this may have upon the case the police have not disclosed.

Detectives are said tonight to be working upon a possible clue furnished by the discovery of finger prints upon the sleeve of the dress worn by Miss Phagan when she was killed. It is stated that these prints are clearly outlined, and may prove of importance in establishing the identity of the murderer.

Chief of Detectives Lanford said tonight that it was improbable that more arrests would be made until after the evidence has been taken at the coroner's inquest set for 9 o'clock tomorrow morning.

Lynching Threatened.

Due to the circulation of sensational extras tonight, it was reported that an attempt might be made to lynch Newt Lee, the negro now confined in the central police station. Investigation of this rumor by the police led to the arrest of Walter Graham, a young white man, on a charge of inciting to riot. The police charge that Graham was engaged in making incendiary speeches to various groups of citizens in the downtown section in an effort to incite riot. When Graham had been searched and locked up at the central station, the police were startled by pistol shots from his cell. Investigation proved that he had retained possession of a small Derringer overlooked by the police who searched him. Graham said he fired at a rat.

MAXTON'S OFFICERS

All Save One Renominated—Recital Given by Prof. McCombie Murray

(Special Star Correspondence.)

Maxton, N. C., April 29.—In the recent Democratic convention here the following officers were nominated: For mayor, McKay McKinnon; town board, L. L. McGirt, J. B. McCallum, Jr., A. H. Currie, Dr. L. R. Kirkpatrick; for water commissioners, Ben S. Barnes, T. O. Evans and J. G. Baldwin.

All these were renominations except that of Mr. Barnes, who is a new man, taking the place of J. T. Carter, who declined a renomination.

Prof. J. McCombie Murray, who expects to leave here within a few weeks to locate in Richmond, Va., gave a farewell recital in the graded school autditorium last night.

The programme was very much enjoyed by those who were so fortunate as to be present.

Raleigh, N. C., April 29—Ernest Umphries, wanted in Cleveland county for the burning of the town hall at Grover, in that county, has been arrested at Gaffney, S. C., and Governor Craig has issued a requisition on the Governor of South Carolina for his return to the Cleveland authorities to stand trial for arson.

OUTLINES

The Senate Canal Committee has decided to postpone the question of free canal tolls till the December session of Congress.

Debate on the tariff in the House yesterday was excited, spats between Democrats, Republicans and Progressives being frequent.

The Southern Sociological Congress adjourned in Atlanta yesterday after taking steps for a vigorous prosecution of its work in future.

Strike-breakers have been imported to Asheville and the officers have been asked to protect them in manning the cars of the electric system.

Detectives are still in the dark but circumstances point to the guilt of a negro janitor in the murder of Mary Phagan, the Atlanta girl found dead Sunday.

The railroads having declined to grant North Carolina cities proportional freight rates with Virginia cities at the conference in Raleigh yesterday, Governor Craig threatens to call an extra session of the Legislature to deal with the situation; a recess was taken until today.

New York markets: Money on call steady 2 3-4 to 3 per cent.; ruling rate and closing bid 2 3-4; affered at 2 7-8. Spot cotton quiet, middling uplands 11.80; advance of 10 points over Monday's closing. Flour steady, wheat steady; No. 2 red nominal. Corn firm 63 1-4. Turpentine easy, machine barrels 44 1-2. Rosin quiet.

TO MAKE WAR ON MONTENEGRO

Powers Favor Force if She Does Not Evacuate Scutari

AUSTRIA READY TO FIGHT

London Hears No News That Austria Will Send Army to Scutari—Turkish Hero May be King.

London, April 29.—Up to a late hour tonight the British foreign office had no news that Austria was actually taking separate action against Montenegro. It is understood Austria is waiting the result of the Ambassadorial conference Thursday and employing the interval in an endeavor to induce Italy to join her in military action.

Meetings of the Ambassadors in London have shown almost conclusively that a majority of the powers are now prepared to adopt war like measures against Montenegro. It is thus practically certain that within a few days, whether Italy consents or not, Austria will dispatch an ultimatum to Cettinje demanding the immediate evacuation of Scutari.

Not another word of Esaad Pasha's doing in Albania has come through. Ismail Kemal Bey, head of the provisional Albanian government, has arrived in London to enlist British support. He and other Albanians don't regard Esaad Pasha's coup very seriously but the opinion seems to be growing among diplomats here that an administration under Esaad Pasha in Albania might not be such an impossible solution of a difficult problem.

It is considered that Esaad Pasha, as an influential Albanian with a strong following and the prestige of a gallant defense of Scutari, might be more acceptable to Albanians than a foreign prince and that if allowed to retain his lef-chosen post, he might be inclined to make territorial concessions which would compensate Montenegro for the loss of Scutari and satisfy European claims.

Esaad Pasha Has Big Army

Belgrade, April 29.—The newspaper Politica asserts that Esaad Pasha has arrived at Tirano with 22,000 men.

MISSOURI INSURANCE MUDDLE

Most of Companies Will Withdraw From State

St. Louis, April 29.—Although the great majority of the fire insurance companies that have been doing business in Missouri have announced their intention of ceasing to write policies after noon tomorrow, the State will not be deprived of insurance protection.

Even had not 14 foreign companies and five home concerns informed Insurance Superintendent Revelle today at Jefferson City they would continue to do business, the State would not be without protection as none of the companies has announced its intention of cancelling existing policies and for the last two weeks, nearly every agency here has done a rushing business in writing new policies. Many business concerns took out new policies to begin when their present policies expire, thus having to pay for double insurance. A sub-committee of the citizens' committee named last week to investigate the situation, decided today to recommend at the meeting of the main committee on Thursday that the referendum be used in an effort to repeal the Orr law to which the companies object. The cost of getting up and circulating petitions is estimated at $15,000.

JUDGE HOWEY FOR PROMOTION.

President Wilson About Decided to Advance Mississippian.

Washington, April 29.—Charles B. Howey, associate justice of the United States Court of Claims, probably soon will be nominated chief justice of that court to succeed Chief Justice Stanton J. Peele, retired. Senator Thomas, of Colorado, life-long friend of Justice Howey, today talked with President Wilson and it is said urged him to make the appointment. Tonight the President met Judge Howey in the executive offices and had a long conference with him. No announcement was made at the White House, but it was learned that Judge Howey's nomination practically had been decided upon. The President is also said to be considering several candidates for the vacancy which will be created by the promotion of Justice Howey.

Justice Howey is a native of Oxford, Miss., and was appointed assistant attorney general under the second Cleveland administration. He was Democratic National Committeeman from Mississippi until 1897 when he became a member of the Court of Claims.

AMERICAN PEACE CONGRESS

Central American Diplomats Banqueted at St. Louis

St. Louis, April 29.—South and Central American diplomats arrived here tonight for the fourth American Peace Congress which will open on Thursday. The party was met by James Arbuckle, representing the Pan-American Trade Association of St. Louis, and later were guests at a banquet given by the Million Population Club. Most of them will make speeches in the Peace Conference.

The visitors who arrived are: Don Ramon M. Valdes, charge d'affaires of the Panama legation; Dr. Alberto Membreyo, minister from Honduras; Don Jacquin Barnado Calvo, minister from Costa Rica; Don Ignacio Coulderon, minister from Bolivia; Frederico Alfonso Peft, minister from Peru; Dr. Francisco J. Peyndo, minister from the Dominican Republic, and F. D. McQuinn, representing the Panama Railroad.

TOWN AFTER TOWN FLOODED

Mississippi River Spreading With Destructive Force—Government Feeding Nearly 25,000 People—Loss of Life—The Situation.

Vidalia, La., April 29.—The flood water from the Gibson's Landing crevasse in the Louisiana levees, 25 miles north of here, is spreading with destructive force over Concordia Parish, claiming town after town in it path southward to the Red river. Hundreds of homeless persons and thousands of head of cattle are being moved from the flooded district, and thus far the known loss of life in this section is confined to two colored people.

Already more than 5,000 refugees have been taken from the territory, which is being rapidly inundated by the Sunday morning crevasse, and within another week it is estimated that the United States army relief corps will be sheltering and feeding at least 20,000 more. There are 3,500 refugees in the relief camp at Natchez, and hundreds of others are arriving on every steamer sent out by the relief corps.

Ferriday, La., a town of 1,000 people in Concordia Parish, with its railroad shops, is now covered, and the water is rising rapidly. The bank of Ferriday is flooded and the water is on the first floor of many houses. Despite this and the rise in the stage, the white people will not forsake the place and those who have no second floors in their homes will occupy box cars on the New Orleans and Northwestern tracks. This line continues to operate between Vedalia and Ferriday.

Three hundred cars of live stock have been brought to Vidalia by this road in two days. From Vidalia they are ferried to Natchez.

At Clayton the water is ten feet deep and rising. Vidalia, the Concordia parish seat, with a population of 2,000, today began closing the gap in the trestle of the New Orleans and Northwestern Railway. If the gap holds, the town will not be flooded.

To Save New Orleans.

New Orleans, April 29.—After an inspection this afternoon of the Mississippi river levees above the city of New Orleans, and the protection levees which extend from the river north of the city back to Lake Pontchartrain, it was decided to place night and day guards on the protection dikes. The inspection was made by city officials, representatives of the Board of Trade, Cotton ExchangePublic Belt Railroad and Illinois Central Railroad and the United States engineers.

The levees in the city and the protection levee above New Orleans were said to be in excellent condition, but there are several bad spots in levees north of the city. In the event of a break in the river levees above Shrewsbury, about six miles north of New Orleans, which engineers say is very probable, the city authorities state that arrangements have been made for closing the gaps in the protection levees promptly.

The levees in the city have been raised and strengthened, and thus far no crawfish or muskrat holes have developed. The river stage is nearly two feet below the high record of last year.

SOCIAL EVILS IN THE SOUTH.

Vigorous Plans of Sociological Congress Outlined.

Atlanta, Ga., April 29.—The second Southern Sociological Congress which for the past five days has been in session here, considering means to "promote national health and righteousness," adjourned late tonight after an enthusiastic meeting at which plans were laid for a systematic war upon various forms of social evil throughout the South. Choice of the meeting place for next year's Congress was left in the hands of a special committee which will announce its decision later.

Special attention was given the race problem of the South and Travelers' Aid Work during the closing hours of the congress. The race relationship section, which during the session has held a number of meetings at which the condition of the Southern negro was discussed, adopted resolutions urging that greater recognition be accorded the race in educational, social, and political fields. Lynch law, was condemned as "an aggravation, rather than a cure for crime."

Plans were made by the travelers' aid section of the congress to establish in many cities bureaus whose aim would be to eliminate as nearly as possible the moral dangers which surround the inexperienced traveler.

Other sections of the congress, after a series of conferences on public health, child welfare, organized charities, courts and prisons, and the church and social service, announced plans for social reform in these respective fields.

At the closing meeting tonight Dr. A. J. McKelway, of Washington, D. C., Southern secretary of the National Child Labor Committee and chairman of the Child Welfare Section of the Congress, urged a thorough investigation of conditions in factories throughout the South. Referring to the case of Mary Phagan, the 15-year-old employe of the National Pencil Company, whose mutilated body was found in the company's factory here Sunday, Dr. McKelway declared that only a wrong social system would have permitted that a girl of her type and age be subjected to the dangers, moral and physical, of factory labor.

In addition to the quota of officers elected yesterday Miss Jesse Woodrow Wilson, daughter of the President, was today chosen special corresponding secretary for Virginia, in recognition of her interest in social reform.

NEWS AND OBSERVER TO SUE.

Raleigh Paper Will Bring Suit Against Wake Water Co.

(Special Star Telegram.)

Raleigh, N. C., April 29.—The Raleigh News and Observer is preparing to bring suit against the Wake Water Company for damages for failure to supply water properly for fighting the fire that destroyed its building. Application will be made to Judge Carter for permission for the suit to be brought against the receivers. Arbitrators will within the next few days announce the price the city of Raleigh must pay the Wake Water Co., for the plant for municipal ownership.

JAPANESE RIGHTS ARE CONSIDERED

Secretary Bryan on Mission to California Promises Solution

NEW ALIEN LAND BILL

It Promises Amicable Adjustment to Allay Friction With Japan—Conference Secret—President Wilson is Concerned.

Sacramento, Cal., April 29.—Possibility of an amicable adjustment of the alien land controversy by means of a new bill, drawn in strict conformity with the treaty between Japan and the United States, confronted tonight the third secret conference of Secretary of State Bryan with Governor Johnson and the California Legislature. The conference was called for 8:30 o'clock. Attorney General Webb drafted the new measure at the suggestion of Governor Johnson and a copy was placed immediately in the hands of Secretary Bryan. The term "ineligible to citizenship," which is declared by Secretary Bryan to be odius to the Japanese, is not included and Progressive Republican leaders are confident they have arrived at a solution of the problem that will receive the endorsement of President Wilson.

Secretary Bryan declined to comment on the new bill except in the conference. The principal features of the bill are as follows:

1. All aliens eligible to citizenship may acquire and hold land in the same manner as citizens of the United States.

2. All other aliens may acquire and hold land "in the manner and to the extent and for the purposes prescribed by any treaty now existing between the government of the United States and the nation or country of which such alien is a citizen or subject."

3. Corporations composed of aliens other than those who are eligible to citizenship may acquire and hold land only according to the terms of existing treaties.

4. Present hoidings of aliens, regardless of their rights to citizenship, are protected.

5. The State specifically reserves its sovereign right to enact any and all laws relating to the acquisition or holding of real property by aliens.

Attorney General Webb worked upon the theory that there could be no objection to writing into the State laws the specific limitations of the Japanese treaty of 1911. Under the terms of this treaty, Japanese subjects are permitted to own "houses and lands for residential purposes, factories, manufactories and shops," according to Mr. Webb. Another clause permits Japanese subjects to lease land for "residential and commercial purposes."

These are the only stipulations made and it is the belief of the attorney general that the rights of Japanese subjects to land ownership in the United States stop at this point. Under his construction of the treaty no land can be owned or leased by Japanese for agricultural purposes, except that which is already owned, or for any other purpose except those set forth in the agreement between the nations. Explaining the wording of the sub-bill, Mr. Webb said:

"Our theory is that at the time the treaty was framed, Japan asked for all the rights as to ownership of land in California that that nation desired for her subjects, and that the treaty as it now stands, represents all that Japan asked, and all that the United States are willing to grant.

"This act does not draw the line upon aliens who are ineligible to citizenship. Those words are not used. It gives not only to Japan, but to every nation whose subjects are ineligible to citizenship under the laws of the United States, the full rights to ownership of land in California that the treaties between the United States and such nations give."

It is generally believed here that the new act would accomplish the ends said to be desired by the people of the State, namely, prevention of the further acquisition by Japanese subjects of farming lands and ranches.

Text of New Bill.

Sacramento, Cal., April 29.—The text of the Webb alien bill, with the exception of an additional clause, relating to the protection of present holdings, which is to be added, is as follows:

Section 1. All aliens eligible to citizenship under the laws of the United States may acquire, possess, enjoy, transmit and inherit real property or any interest therein, in this State, in the same manner and to the same extent as citizens of the United States except as otherwise provided by the laws of this State.

Section 2. All aliens other than those mentioned in Section 1, of this Act, may acquire, possess, enjoy or transfer real property or any interest therein in this State, in manner and to the extent and for the purpose prescribed by any treaty now existing between the government of the United States and the nation or country of which such alien is a citizen or subject and not otherwise.

Section 3. Any company, association or corporation, organized under the laws of this or any other State or Nation, of which a majority of the members are aliens, other than those specified in Section 1, of this Act, or in which a majority of the issued capital stock is owned by such aliens may acquire, possess, enjoy and convey real property or any interest therein in this State, in the manner and to the extent and for the purpose prescribed by any treaty now existing between the government of the United States and the Nation, or country of which such members, or stockholders,

COBB PLAYED; TIGERS LOST

Thrilling 12-inning Game Went to the White Sox by Narrow Margin—All Other Games Postponed Account of Rain

The dreams, aspirations and hopes of Detroit fans were realized when Tyrus Raymond Cobb, famous as the batting champion of the world and more famous as holdout for the largest salary ever paid a ball player, appeared in the game with Chicago yesterday afternoon. Ty received a great ovation when he stepped to the plate in the first inning "with a smile of Christian charity," rivalling the ancient and honorable Casey. However, the Georgia Peach failed to produce the hit that would have scored Crawford in the initial inning. He got a single in the third which scored a run, but again in the eighth he rolled an easy out to the pitcher's box. The game was a thriller from the first inning to the twelfth, but was rather loosely played on both sides. Detroit got two safeties in the twelfth, but could only put one run nacross, one short of sufficient to tie the score.

The Red Sox and Yankees were held up on account of rain and the grounds at Philadelphia were unfit for the battle scheduled between the Athletics and the Senators. The final game at Philadelphia will be played today, weather permitting and Boston and New York will also end their series with this afternoon's game.

Ty Cobb Played but Tigers Lost

Detroit, April 29.—Chicago defeated Detroit 6 to 5 today in a hard fought 12-inning game that was full of thrills from the start to finish. Ty Cobb, playing his first game of the year, received an ovation when he stepped to the plate in the first inning, but failed to produce the hit that would have scored Crawford, who singled before. In the third, the Georgian hit safely scoring a run, but in the eighth, with two on bases, he rolled weakly to the pitcher for an easy out. Cobb seemed to have his old time speed. In the 11th he went from first to third while Weaver threw out Gainer at the initial sack. His two fielding chances were not difficult.

The Chicagos filled the bases in the first with none out, on a single, a pass and Gainer's error. Hall then walked Borton, forcing in Rath. Lord came in a moment later on an out. Detroit tied the score in the third on Bush's single, Crawford's triple and Cobb's single. In the fourth Schaller walked and stole and scored on Weaver's single. Chicago took another in the sixth on singles by Borton and Schaller with Easterly's sacrifice between. Detroit tied the score in the eighth. Bush walked, Vitt and Crawford hit safely, Russell then re-plaeced White and made a wild pitch on which Bush reached home. Veach's sacrifice fly scored Vitt. Three singles and a pass gave Chicago two runs and the game in the 12th, Detroit falling one short in the final, although High and Vitt hit safely.

Chicago . . . .200 101 000 002—6 12 1
Detroit . . . .002 000 002 001—5 9 1

White, Russell, Benz and Easterly. Schalk: Hall, Lake and Stanage. Umpires, Hildebrank and Evans. Time 2:35.

OPERATION ON WRESTLER

Champion Gotch Seeking Relief from An Injury

Marshalltown, Iowa, April 29.—Frank Gotch, of Hamilton, Iowa, champion wrestler, underwent an operation in a hospital here today for the removal of a bone growth in his nose. The growth is said to be the result of an injury sustained in a wrestling match several years ago. Gotch has lately experienced difficulty in breathing and hearing. The right side of the nose was operated on today and the other side will be treated later.

New York, April 29.—After an unintentional foul by Fred Fritts, heavyweight champion of the United States Navy in the third round, the referee gave George Rodel, the Boer champion, the decision in their scheduled ten-round bout in Brooklyn tonight.

New York, April 29.—Jim Coffey, the Dublin giant, knocked out "Whitey" Allen in the first round of a scheduled ten-round bout here tonight.

"MATTY" WAS THERE.

The Giants' old war horse has not lost a game so far this season, and seems to be in even better shape than last season.

Twin and Bull City Teams in Carolina League Yesterday.

(Special Star Telegram.)

Durham, N. C., April 29.—Winston defeated Durham in an 11-inning game here today, 3 to 1. Jim Kelly muffed a fly in the 11th with three men on bases and two men out. Batteries: Winston, Lee and Smith; Durham, Ferris and Ulrich.

KILBANE DEFENDS HIS TITLE

Fought Twenty Rounds to Draw With John Dundee at Los Angeles Last Night—Decision Was Unpopular.

Los Angeles, Cal., April 29.—Johnny Dundee was given a draw at the end of his 20-round fight tonight with Johnny Kilbane, the featherweight champion. Kilbane apparently outpointed the challenger in every round but the Italian's desperate 20-round finish in the opinion of Referee Eyton earned him a draw. The decision was unpopular and the crowd voiced its disapproval.

Round 20—They touched gloves and jumped into [illegible]. They exchanged stiff rights to the face, Dundee fighting desperately. Dundee feinted the champion into an opening and sent a hard left to the jaw. They closed, Kilbane scoring heavily on the body. The Italian battled viciously, putting lefts and rights to the jaw, though apparently without damage, as the gong rang.

Round 1—They rushed into a clinch and wrestled about the ring. Kilbane jolted Dundee with left and right to chin and Dundee planted a hard right to the face as they separated. Kilbane avoided a rush and landed a hard straight right to the head as the round ended. Kilbane's round.

Round 2—Kilbane rushed the Italian to the ropes, planting a hard right to the stomach. He jabbed Dundee's face with rights and lefts. Kilbane put two hard rights to the jaw as the round ended. Kilbane's round.

Round 3—Dundee tried his leaping-in-the-air blow but Kilbane was three feet away before he could land. Kilbane rushed the New Yorker to the ropes. Both did clever work at long range but neither landed a hard blow. Dundee took the aggressive and chased Kilbane around the ring. Kilbane took a light left to the head as the bell rang. Round even.

Round 4—Dundee put two hard lefts to the jaw without a return and they clinched. The champion fought Dundee to the ropes. Dundee clipped Kilbane's chin with a stinging left. Kilbane landed a hard right to the stomach. Kilbane had better of the infighting. Kilbane's round.

Round 5—Dundee missed a vicious swing and Kilbane jabbed three times with his left to the jaw. Dundee rushed, forcing the champion to give way. Kilbane jarred Dundee with a hard right to the face. Dundee hurled himself in the air at the champion again and rushed Kilbane to the ropes as the bell rang. Kilbane's round.

Round 6—Kilbane worked Dundee to the ropes, landing three lefts to the face. Dundee reached the champion's face with a light left. Kilbane grabbed Dundee around the neck with his left and jarred him with a hard right. Dundee, in an aggressive spurt, landed with both hands to the face. Round even.

Round 7—Dundee came up with his right eye slightly damaged. Kilbane rushed him to the ropes with light body punches and placed a hard left to the stomach. Kilbane jabbed to the body in a clinch. Dundee sent a right to the body and left to jaw. Kilbane's round.

Round 8—Dundee rushed but Kilbane eluded him and landed lightly to the face. Kilbane was smiling as he drove a right upper-cut which caught Dundee on the nose. Dundee clinched and Kilbane worked both hands to the body, apparently hurting the Italian. Dundee smashed a hard left to the ribs. Kilbane's round.

Round 9—A hard left brought blood to Dundee's mouth. Dundee did much jumping in the air, but failed to connect. Kilbane drove a terrific right to Dundee's chin and followed with a hard left to the face. He punished Dundee in the stomach in a clinch. Kilbane's round.

Round 10—Kilbane came up strong while Dundee showed weariness. Dundee landed a hard left to the jaw. Dundee clinched. They exchanged lefts to the jaw. Each landed a hard left to jaw and they clinched. Dundee made his best showing of the bout in this round which was even.

Round 11—Kilbane stood off and pecked the Italian's face as the latter vaulted about. Kilbane upper-cut Dundee twice in the face. Kilbane landed left on jaw and was jeered for butting. Kilbane's round.

Round 12—Dundee's eyes were both swollen as he came up to meet a straight left to the jaw. Kilbane blocked many blows and landed repeatedly to the face. Kilbane drove left and right to stomach as Dundee tried to reach him via the air route. Kilbane sen the Italian to the ropes. Kilbane's round.

Round 13—Dundee jumped at the champion and took several jolts to the body. The Italian held on. Kilbane ducked a wild swing and drove his left to the stomach. Dundee clinched, both landing effective blows on the face. Kilbane's mouth and Dundee's right eye were bleeding. Kilbane's round.

Round 14—They mixed in the center of the ring. Kilbane worked both hands to Dundee's sore eye. Dundee put three hard rights to the champion's face and Kilbane clinched. Dundee sent the champion's head back with a straight left and staggered the champion with right to chin. Dundee reeled to the ropes under a volley of blows to the face. Kilbane's round.

Round 15—Dundee drove a hard left to the jaw and the champion rushed him to the ropes. They wrestled about the ring. Kilbane planted a right upper-cut to the Italian's bad eye. The gong found them in a clinch.

Round 16—Dundee's leading was effective. Kilbane put two straight lefts to the jaw and drove a hard right to the stomach. Dundee leaped and clipped Kilbane's jaw with a light left, and was jumping about when the gong rang. Kilbane's round.

Round 17—Kilbane flailed body and face with both hands. They wrestled about and the champion sent Dundee to the ropes with a terrific right upper-cut. Dundee held on and the referee broke them apart. Kilbane cut Dundee's eye with a right swing. Kilbane's round.

Round 18—Dundee covered up and the champion used his left to stomach. Dundee planted a left and took several hard blows to the stomach. Kilbane landed effectively n Dundee's sre eye and ducked vicius swings.

Rund 19—Dundee rushed but was met with two upper-cuts. He drove a hard left to the chin. Both landed lightly. Kilbane had the better with short-arm blows. He staggered Dundee with a stiff right to the chin. Kilbane out-slugged Dundee throughout the round.

Paris, April 29.—There are today 2,490 certificated aviators in the world, according to the annual bulletin of the International Aeronautical Association. Of these the United States possesses 193; France 968; Great Britain 376; Germany 335; Italy 189; Russia 162; Austria 83; Belgium 68; Switzerland 27; Holland 26; Argentine 15; Spain 16; Sweden 10; Denmark 8; Hungary 7; Norway 5; and Egypt 1.

Youngstown, O., April 29.—Otto Kohler, of Cleveland, and Eddie Murphy, of Boston, lightweights, boxed 12 fast rounds here tonight. Murphy won the decision.

GREAT GAME GOES TO GIANTS

Mathewson and Rucker Pitched Great Thirteen-Inning Game—Cincinnati Reds Lost—Braves-Phillies Rained Out.

Christy Mathewson, the greatest of all right handers, and Rucker, star among left handed pitchers, fought the battle of their lives on historical Ebbett's Field yesterday afternoon for 12 long innings, the Giants getting the lucky break in the 13th and winning by a nerve-racking finish in which six Giant batsmen circled the bases in one inning. Rucker pitched no-hit ball for the first seven innings, only one Giant reaching first base, on a pass. Mathewson pitched the entire 13 innings, allowing only eight hits all of which were foiled by lightning double plays. Doyle started the show in the 13th with a double and Murray followed with a single. Seven hits in this inning brought the run total up to six.

The Cincinnati Reds were hoodooed yesterday when their uniforms were accidentally left in St. Louis and they were compelled to borrow uniforms off the Chicago White Sox. These were much too small for Tinker's giants, and this disadvantage, together with the absence of their red stockings, caused their downfall, Chicago winning 2 to 7.

The Boston-Philadelphia game was cancelled on account of rain. The Phillies go to Boston for a series on the Braves' home grounds today.

Giants Won Long Session.

Brooklyn, April 29.—New York defeated Brooklyn 6 to 0 today after Mathewson, the great right hander, and Rucker, star among left handed pitchers, had fought the battle of their lives for 12 runless innings. New York made a whirlwind finish in the 13th and won by scoring six times in a batting rally.

For seven innings Rucker pitched no-hit ball, but one New York player reaching first. He was Shafer, who got a base on balls in the opening inning. Murray, first up in the eighth, made the initial hit and was caught stealing. Mathewson also opened the ninth with a single only to be forced out. Shafer got the third New York hit in the 12th and was caught stealing. Mathewson was hit more freely but every time the Brooklyns got a start a fast double play stopped them. Dovle opened the 13th with a double and Murray followed with an infield tap. Then came more hits and with four runs and six hits counted, Rucker was relieved. Two out and a hit off Stack brought the total up to six runs.

New York . . 000 000 000 0006—6 10 3
Brooklyn . . . 000 000 000 0000—0 8 1

Mathewson and Meyers; Rucker, Stack and Miller; time 1:50; umpires Byron and Ulmer.

Cincinnati's Hard Luck.

Chicago, April 29.—The Cincinnati National League team appearing on the field for the first time in history without red stockings, was defeated by Chicago today 7 to 2. Instead of the famous hose which gave the club its soubriquet of "Reds", Manager Tinker's men wore the stockings of the Chicago White Sox, lent by Owner Comiskey with complete outfit of uniforms, gloves, bats and shoes, the Cincinnati team's uniforms have been accidentally left at St. Louis. Misfit shoes and in some cases tight clothes handicapped the visitors. Some were unable to stoop low enough to stop grounders and others could not run fast enough to catch flies. The locals bunched hits with this poor fielding and won easily.

Cincinnati . . . . . 100 000 010—2 8 3
Chicago . . . . . 300 012 01x—7 8 1

TO BUILD NEW ISLAND AT SEA

Part of Contemplated Enormous Sewage Disposal Plant in New York—Organized Theft—Round Court House Proposed— Gotham

(Special Star Correspondence.)

New York, April 29.—Plans for a great sewage disposal plant which will involve the building of a new island three miles out at sea and the expenditure of more than $37,000,000 for its completion and the purification of all the city, waters have been completed here, which when they are finally put into effect will give this city the most efficient sewage disposal system in the country.

At present the city's sewage flows into the rivers in which a great part remains, carried back and forth by the tide, instead of going out to sea. Under the new plan, however, this will all be done away with. Broadly speaking this remarkable plan calls for a twelve-foot tunnel under Brooklyn to an island to be built in the shallower waters three miles out at sea off Coney Island. Through this tunnel the sewage would be pumped to the new island where all the impurities would be eliminated before it is finally allowed to flow into the ocean. The location of the new island has been approved by the Harbor Line Board as it would not be in the way of navigation nor have an injurious effect on the harbor. The cost of building the island has been placed at $615,000 and its dimensions as now planned are 1,800 feet in length by 1,000 feet in width giving an area of about forty acres. A harbor will be provided for tank steamers which will be employed as carriers of the sludge removed from the water before it is allowed to flow into the sea. In connection with the great water supply system now under construction, this new plan should equip the city in a manner superior to any other in the world. Incidentally the new plan is certain to receive the enthusiastic support of all bathers at nearby beaches at which times the water is so full of garbage as to make swimming extremely distasteful.

* * *

New lines of organized graft have been developed so rapidly here since the beginning of the investigation of the police department that it takes something out of the ordinary to make New York sit up and take notice. However, the discovery of organized theft among the drivers of the delivery wagons of the city's merchants amounting, it is believed, to $2,000,000 a year, is attracting much attention and the baring of the whole situation will be closely followed. Assistant District Attorney Brothers has begun the investigation as the result of the statements of one man who confessed to receiving stolen property amounting to more than $50,000 and revealed a system of thefts to the district attorney which would account for the more than $2,000,000 worth of goods the Merchants' Association says is stolen yearly from reputable business houses here. In explaining the manner in which he persuaded drivers to steal for him the confessing witness said: "Oh, that was easy for me! I became acquainted with these men easily, because I had been a truckman myself. I made it my business to know them and once I got one who would steal for me I always tried through him to get others. The drivers go out to make a delivery and when they come back they raise a hue and cry and say that some of their load has been stolen. Most of the time, however, the goods have been dilvered to the 'fence' with which they deal. That is the way the game is worked. I reckoned that our profits in the business would amount to $400 a week if we had not been caught, because we did thousands of dollars worth of business and not one legitimate dollar's worth." As the case is developed it may incidentally afford considerable amusement provided the names of the customers who finally clothed themselves in the stolen goods are made public.

* * *

With the selection of the plans for New York's new $12,000,000 Court House as a result of the competition in which practically all the country's most prominent architects have been engaged, a bowl of criticism has arisen here as the opening of a controversy which promises to involve the whole architectural profession to say nothing of the public. Of course, some

"Clincher" Paint

We know a paint which holds to the wood like a driven nail. Seasoned lumber is porous. The pores are the empty sap-cells. White lead paint, which dries on the wood in the form of a solid, elastic film, fastens into these pores, and the whole coat of paint is actually riveted like armor-plate to the surface it decorates and protects.

Lewis White Lead
(Dutch Boy Trade Mark)
and Pure Linseed Oil

make the paint that spreads into a solid body. It becomes a part of the wood itself—an outer layer that preserves the life of the lumber.

The following dealers sell it as well as other painting requisites,

N. Jacobi Hardware Co.
M. W. Divine & Co.

Drop in and have a talk with them about painting.

MEETING OF 11TH DISTRICT U. D. C. THIS AFTERNOON.

The Cape Fear Chapter of the United Daughters of the Confederacy will be hostess this afternoon at 4 o'clock to the delegates in attendance upon the 11th District meeting of the U. D. C., in the W. L. I. armory. The district is composed of the Wilmington, Whiteville, Burgaw, Clarkton and Wallace chapters, and the meeting will be under the direction of Mrs. Richard Price. It is a new feature in U. D. C. circles, this being the first of such district meetings. The State only recently has been divided into districts an experiment. The purpose is to draw the several chapters closer together and create a greater enthusiasm in the work of the U. D. C. The various delegates will be entertained by the Cape Fear Chapter and the programme includes an automobile tour of the city and a luncheon by the chapter. At the meeting there will be music, reports from the chapters and general discussions. The Daughters in the various districts of the State have been holding meetings during the past week.

MR. WILLIAM MURDOCK PECK AND MISS ALICE DAVIS WED.

The marriage of Mr. William Murdock Peck and Miss Alice Davis, an event full of interest to many people, took place yesterday afternoon at 5:30 o'clock in St. James' Episcopal church in the presence of a large number of relatives and friends. The Rev. Wm. H. Milton, D. D., rector, performed the ceremony according to the ever impressive ritual of the Episcopal church.

The music was given by Mr. McHenry McChord, organist director, and as he played Mendelssohn's Wedding March, the bridal party entered, Miss Bessie Lodor, first maid, followed by Misses Cynthia Rountree and Helen Clark, after whom came Messrs. Junius Davis, Jr., and B. B. Reynolds, then Misses Mary Wiggins and Julia Parsley, Messrs. Bennett O'Neill and Platt W. Davis, Misses Florrie Grant and Madge Webb, Messrs. W. M. Parsley and D. Frank Holloway, and Mr. Clyde Council. Then came the maid of honor, Miss Eliza D. Lavis, sister of the bride, who entered with her father, Mr. Junius Davis, who gave her away. The groom with his best man, Mr. Oscar P. Peck, his brother, met the bride at the altar and the vows were spoken. The ribbon children were little Miss Elizabeth Stevenson and Master Colin MacRae. The Bridal Chorus from Lohengrin was given as a recessional.

The bride wore white crepe charmeuse and carried a shower bouquet of lilies of the valley and Bride roses. The maid of honor wore yellow crepe and carried Shasta daisies, and the bridesmaids wore white lingerie with yellow ribbon, and carried Shasta daisies.

Following the ceremony, a reception was tendered the bridal party by Mr. and Mrs. Thos. W. Davis at their residence at Carolina Heights. The home was very pleasingly decorated with Shasta daisies, roses and palms. Refreshments were served, and the couple left on the 6:45 train for Northern cities. Upon their return they will be at home at No. 313 South Third street.

Among the pre-nuptial events given in honor of the bride and groom was a delightful affair at the home of Mr. and Mrs. George Rountree Monday afternoon, and an enjoyable reception was tendered the bridal party again Monday evening by Mr. and Mrs. Van R. C. King, at the residence, No. 1806 Princess street. The out-of-town guests were Mr. Clyde Council, of Lake Waccamaw, and Miss Madge Webb, of Shelby.

The bridal presents were very numerous and very beautiful. Both young people are known to many friends in Wilmington and in other State cities. The bride is a lady of charming qualities, the daughter of Mr. and Mrs. Junius Davis. The groom is of the well known hardware firm of Peck & Holloway and as a business man has created a place for himself among the business men of this city.

MR. AND MRS REGISTER ENTERTAIN AT THEIR HOME.

Fayetteville, N. C., April 28.—On Friday evening at their lovely suburban home, "Seven Oaks", east of the city, Mr. and Mrs. J. E. Register entertained with a linen shower, complimentary to their cousin, Miss Henriette Oliver Evans, whose marriage to Mr. John Kent is the social event of the coming week.

After having registered their names, the guests were invited into the dining room which was beautifully decorated with Southern smilax, to partake of punch, served by Miss Emily Joyner, of Greensboro, N. C., who was beautifully gowned in white.

On a table in an alcove was a lake surrounded with ferns and smilax. Above the table was a graceful festoon of smilax from which was suspended small Japanese umbrellas.

In the front parlor were festoons of green, from which also were suspended the Japanese umbrellas, and in the center of the room, suspended from the ceiling was a large white umbrella tastefully decorated with bows of green satin ribbon, with long streamers, which, when pulled by Miss Evans and Mr. Kent caused a downpour of linen, attesting the love and esteem of their large circle of friends.

Delightful refreshments consisting of strawberries, cream and cake were served.

Miss Evans was a picture of girlish loveliness in a white crepe gown, with trimmings of Baby Irish lace, pink satin girdle, and a corsage bouquet of pink carnations.

Mrs. Register was assisted in receiving her guests by Mrs. Jesse Talbotte and Miss Luella Duke, of Cuthbert, Ga. At a late hour the guests departed with all good wishes for their charming host and hostess.

PERSONAL PARAGRAPHS.

—Messrs. J. W. Russ and D. R. Ruark, business men of Shallotte, passed through the city Monday en route to Clinton, Sampson county, where they go to commence operations in the development of turpentine beds recently purchased from Mr. W. E. Register, of Clinton.

ELECTRICIANS RE-ORGANIZE.

Enthusiastic Meeting Was Held Last Night in Bonitz Hall.

With a large and enthusiastic attendance, Local No. 123, International Brotherhood of Electrical Workers, reorganized last night after having been suspended for some time. The meeting was held in the Bonitz Hall, on Princess street. The union will be affiliated with the Wilmington Trades Council and Messrs. I. S. King, G. T. Williamson and Walter Wood were elected to represent the organization in that body. All the old members have joined the rejuvenated union and it is hoped to secure a number of new members.

Officers were elected as follows: President, I. S. King; vice president, J. C. Wammack; treasurer, G. T. Williamson; financial secretary, Carl Ellington; recording secretary, Walter Herring; foreman, J. M. Sutton; first inspector, H. Everitt; second inspector, Walter Wood; trustees, I. S. King, D. H. Barnett, Walter Wood; press agent, L. B. Woodbury.

ONLY A PIPE DREAM

Hal Chase Has Not Been Sold to Boston

New York, April 29.—"There is nothing in the report that Hal Chase is to be traded to Boston or any other club," said Frank Chance tonight. The manager of the New York Americans admitted that Boston and other clubs would be glad to get Chase, but characterized the idea that there was any intention on the local club's part to dispose of the star first baseman as a "pipe dream."

Chase is booked to play first base for the Highlanders tomorrow if the weather permits a game. Chance planning to lay off from active work for a while until his injured leg is back in shape again. There was little or no evidence in Chance's last appearance with the team that his injured limb was bothering him but the results of a strenuous afternoon's play make themselves felt in a stiffness for which the club's trainer has prescribed a rest.

THERE IS A DIFFERENCE

Between Promises and Actual Results.

Promises won't overcome hair trouble. The manufacturers of Newbro's Herpicide promise nothing which is not justified by an intelligent use of this preparation. The desired end ultimately becomes an accomplished fact. This is the reason that Herpicide has thousands of satisfied friends all over the world.

By keeping the scalp clean and healthy and destroying the dandruff germ, Newbro's Herpicide makes beautiful hair. Herpicide prevents the hair from falling and allows it to grow unhindered and naturally except in cases of chronic baldness which is incurable.

One dollar size bottles are guaranteed by all druggists to do these things.

Send 10c in postage for sample and book to The Herpicide Co., Dept. R., Detroit, Mich.

Applications obtained at the best barber shops.

ROBT. R. BELLAMY, Special Agent.

LOCAL DOTS.

—The cases against A. W. Ward and Luther Rogers, two white men, who are charged with abandonment and non-support, have been postponed in Justice Harriss' court for several days.

—Mary Sherrill, colored, was arrested yesterday by Officer T. M. Hall, on a charge of larceny of a gold signet ring belonging to Mr. S. S. Drew. She will be tried in the Recorder's court this morning.

—Martha Wilson, alias Martha White, colored, aged 71 years, was yesterday adjudged insane by the Clerk of Superior Court. She is not violently insane and was sent to the county farm to be cared for.

—E. J. Blount, colored, who was arrested here Sunday morning by Deputy Sheriff Kelly on a warrant from Newbern, where he is wanted for forgery, was taken to that place Monday afternoon by Sheriff Lane, of Craven county, who came here for him.

—Chief of Police Fowler yesterday called attention to the new ordinance relative to vehicles being left standing in the streets over night. The new ordinance requires that all such vehicles shall be provided with proper lights. The penalty is a fine of $10. Four such vehicles were found by the police Monday night and two of these were found to have a false number.

—A deed was filed for record yesterday from J. D. James and wife to A. Katz, for $100 and other considerations, lot on west side of Ninth street, 84 feet south of Wooster, 60x65 feet in size; and one from Benj. E. Hollis, wife and J. W. Hollis, to W. H. McEachern, for $1,500 and other considerations, tract in Masonboro township, Myrtle Grove Sound, touching Pompey's branch, and the Wanet and Sullivan lines

WILL PRESENT "SYLVIA."

Performance to be Given at the High School Friday, May 9th.

Friday night, May 9th, the High School will present in its own auditorium, for the pleasures of its pupils and patrons, the popular two-act operetta, "Sylvia." The first announcement of the date was made yesterday, when, after several weeks of rehearsal, it became apparent that every detail would be in readiness for the performance within the time set.

Although the play is strictly a High School enterprise, it will be presented by a cast which includes a number of persons not of the school. Most of the principal roles in the company of 35 are held by experienced players, the choruses and minor characters being recruited from the student body. Under the fortunate direction of a manager who has previously produced the piece, the players and choruses are rapidly filling in their parts. Practices are now being held each night, and the rehearsals are already beyond the amateurish stage. It is believed, in fact, that "Sylvia" will prove to be one of the most worthy and enjoyable local productions of the season.

The charm which the operetta claims, is unlike many a more recent composition, both of theme and score. Its theme is pastoral; its time, the middle English period. Its chief complication results from the temporary interchange of positions between Sylvia, a noble lady, and Betty, a shepherdess. The details of the story lend a fresh and pleasing character to the whole. Costumes of the period are in abounding evidence, and will furnish one of the main points of interest. The dialogue is bright and witty. "Sylvia" in fact, is a full-grown, very attractive stage piece from the viewpoint of construction.

But the chief attraction of the operetta is its tuneful score. This will be sung in full, and the solo parts belonging to the principal roles will be by voices conceded to be among the best in the city. The High School orchestra will play the entire score and furnish incidental music.

The High School has been responsible for a number of delightful entertainments this season, and the people of the city have learned to appreciate to the full the benefit of this activity of their institution. The patrons of the school have come to expect their money's worth from anything the High School offers, and it is assured that on this occasion they will not be disappointed.

It is announced that there will be a small admission charge to defray incidental expenses, any surplus going to one of the standing school betterment funds.

Pittsburg, April 29.—A satisfactory agreement was reached today between representatives of the American Flint Glass Workers Union and the United States Glass Company and a strike, involving upwards of 4,000 men was declared at an end. The trouble started some time ago when four men employed in a local factory were discharged because of their alleged union connections.

Washington, April 29.—A reorganization meeting of the Democratic Congressional Committee called for tonight was postponed indefinitely on account of night sessions of the House. It is probable that the committee will not reorganize until after the tariff bill has been disposed of.

A Cash Dollar

IS THE ONLY KIND KNOWN AT

GAYLORD-PLATT-HAAR CO.'S BIG STORE

And it buys more merchandise and greater value by 25% than the "Credit" Dollar can ever secure. If you buy for Cash we are seeking for your patronage, knowing that we must give the "GREATEST VALUES" for the Least Money.

AND WE DO IT!

In this big store you will find:
A DRY GOODS DEPARTMENT,
A MILLINERY DEPARTMENT,
A MEN'S AND BOYS' CLOTHING AND FURNISHING DEPARTMENT,

To the Public

I conceive the issues in the present campaign to be two only, and that the situation calls upon me as a candidate for Mayor to state my position on these in the frankest way possible.

The first consideration of good government is law enforcement, and I recognize that no citizen or class of citizens has a right to claim exemption from any one law any more than all citizens have the right to claim exemption from all laws, and my position is law enforcement without favors and without discrimination. The laws must be respected.

The second consideration, hardly inferior to the first, is capable administration. Every thoughtful and informed man in the community knows that our city government is now a much larger business proposition than ever before, and that large financial operations must be provided for by the incoming administration. My experience in city affairs gives me an inward knowledge of public conditions, and I unhesitatingly say that I believe I can save the taxpayers $50,000.00 a year in operating expenses without lowering in any degree or particular the efficiency of the public service, and at the same time maintain at the highest level the public credit.

I have no interest to serve except the public good and no pledges to redeem to persons seeking office or favors.

Upon this statement I appeal to the intelligent judgment of the public.

WM. E. SPRINGER.

FULL ASSOCIATED PRESS REPORT.

Wednesday, April 30, 1913.

An old crab is always crabbed.

A setting hen is not the only one of the species that is set in her ways.

The "concert of nations" gave out a note that sounded like a base affair to Montenegro.

Tomorrow is May Day. Probably warmer, but there is no way of guaranteeing it these times.

"Truth crushed to earth will rise again," but when it does it has to take what is coming to it.

If you want to be a true prophet, predict that a number of June weddings will occur very soon.

Capt. Hobson is profoundly quiet while vindication of his idea about a powerful navy is now strangely emphasized.

Culture is a blessing to its possessor and a delight to others who come within the influence of those who are cultured.

The best way to get Dr. Mary Walker to wear a hobble skirt is for men to adopt women's dress. She would follow suit.

Whether you are slim or pudgy, have enough breadth to you not to have it in for some other fellow who doesn't think like you do.

A legalized primary strikes a professional politician as a bad policy for a party. It is, but it is a good one for the people who are the party's voters.

Munich has a school for matrimony, but it is safe to bet that those who graduate from it will learn more from experience than was ever dreamed of in their philosophy.

A man who is in favor of taxing himself and increasing the cost of supporting his family is either a Republican or a man who imagines that he is a Progressive because he is a Bull Mooser.

A Congressman asserted the other day that "the Republican party is a party that does things." It is for that reason that it's in the junk heap. It was caught doing things against the interests of the people.

When a man is about to croak and actually flatters himself to his dying moment that the Lord has helped him to fence in a large part of the earth, it shows that he thinks his Maker has taken a hand in big business.

Lillian Russell truly observes: "There is nothing more attractive than beautiful hands." Of course, she has no reference to those beautiful hands that men employ for the purpose of raking in the pot.

It is announced that Italian women are now demanding the right to vote, with vague insinuations of trouble if their petitions are not granted. We could never understand why men don't save trouble by giving in as soon as there is prospects of an unequal fight.

A contemporary says "the rank and file ought to go to the ballot box and vote." The rank generally does, but the file neglects its civic duty and stays away from the polls. The indifferent file is the worst part of a community because its selfishness makes it oblivious to the public welfare.

Says the Jacksonville Times-Union: "Dr. Osler advises the old man to forget the past and ignore the future." The doctor does not prescribe anything that will make a man forget. In a moment of indiscretion a young man can do a thing that he can never forget if he lives as long as Methuselah.

The disposition seems to be growing to get the other fellow to do it when a community has an enterprise to be set on foot. If there is anything in it, the business men of every community should put their own shoulders to the wheel. Many communities let one or two promoters come along and get all the credit for building their town. Who built yours?

The Agricultural Department at Washington in a cook book describes 60 different ways to cook and prepare mutton for the table. For a country that produces no mutton, the Department should furnish a recipe for cooking Chicago backband so it will taste like mutton. Raise sheep and attend to them properly instead of letting them shift for themselves.

The Scotland Neck Commonwealth notes the birth of a negro child in Halifax county that tipped the scales at 17 1-2 pounds. "We would like to know," says that paper, "if there is any case on record that can beat this one." In the absence of any records, it may be presumed that there is no case "beating" this one, and doubtless there is none that approaches it.

Instead of throwing bombs, burning houses, kicking policemen in their tummies, hurling stones, and swinging on to the whiskers of gentlemen who are animated pictures of a Kansas populist, the militant suffragettes in England should do like their American sisters. In New York they put on their glad rags, and planted trees, sowed the seed of kindness and set an example that ought to grow all over this country. There is about American women something that is so utterly cute, that men feel like being with them.

"I DO SOLEMNLY SWEAR"

It is an undeniable fact that very many good men and good citizens who would not think of going on the witness stand and perjuring themselves, will go before a taxlister and swear to the truth of a mis-statement concerning the property they own. The temptation to do this increases as the tax rate mounts higher, and as the wealth of such men is augmented. Tax money comes hard with everybody, from the poor man to the millionaire. There is an elemental prejudice against paying it, a primal spirit of revolt against the exactions of government, and men readily excuse their property lies, to themselves, by conjuring up a feeling that they are being oppressed and that anything they can beat the body politic out of is that much saved from a greedy, grasping system that demands exorbitant amounts. The conveniences afforded by public improvements and utilities, the protection to life and property and the whole range of the blessings of orderly government weigh no more than a feather when such citizens as we speak of come to pay for them in the shape of taxes.

As another tax-listing season approaches, it is well for all men to have in mind the granite fact that a lie is a lie, whether uttered on the witness stand after kissing The Book or with uplifted hand before the taxlister. It is a grave infringement of the moral law and it degrades the individual, to say nothing of the very ample punishment promised by the teachings of Christianity. No man can afford to swear falsely to the amount of property he owns. He can find no excuse in a high tax rate, in the apparently large amount he is called on to pay, or in the fact that his neighbors do not give in all that they are worth. It is squarely up to every citizen to deal honestly with the State and himself. The oath that each must take is too lightly held. Read slowly and carefully, it ought to give any man pause before he takes it, knowing that he has made false returns as to his holdings. It was published in The Star the other day, and is worth reproducing here. It reads:

"I————, do solemnly swear (or affirm) that the above and foregoing listed property is a full, true and complete list of all and each kind of property owned by me or under my control as agent, guardian, personal representative, or otherwise, and that I have not neglected to list for taxation for the year all of each and every kind of property of which I am the owner, or of which I have control as agent, guardian, personal representative, or otherwise, in the county of ————, State of North Carolina, and that I have not in any way connived at the violation or evasion of the requirements of law in relation to the assesment of property for taxation. So help me God."

ALFALFA GROWERS' ASSOCIATION

The growing of alfalfa in this country ought not to be anything new but it is. However, it is such a fine Winter cover grazing and forage crop that with general production is only a matter of time. Just as boys' corn clubs had to demonstrate that corn-growing could be made highly profitable, so will the efforts to encourage the growing of alfalfa, clover, vetch, etc., bring about a new realization of our agricultural possibilities.

It is curious to hear about an Alfalfa Growers' Association, but from the Rock Hill Herald, it is learned that the farmers of York County, South Carolina, have such an association. It met at Rock Hill a few days ago and the Herald says great interest was manifested. The members now have 200 acres of alfalfa and have been so vastly gratified with the results that they propose to plant a thousand acres. Professor A. G. Smith, of the Agricultural Department, attended the meeting and delivered an address on alfalfa. He declared that it is possible to make alfalfa a great money crop.

Alfalfa hay has a ready demand and it is not only profitable as a commercial crop but for dairying purposes. Butter-making and beef production go along with it, so that there are three special points of view to be taken along with the growing of alfalfa. That is not all, however, for the benefit to the land and the means of producting fertilizer from stock, is one of the possibilities of growing cover crops.

Some farmers in eastern North Carolina have demonstrated that alfalfa grows luxuriantly in our dry savannah lands and even in some of our sandy lands. One grower near Wilmington has produced alfalfa that reached the shoulders of a man of average height. Five crops of alfalfa hay have been cut in one season from land in this vicinity. Let us learn to take advantage of the possibilities of our versatile soils.

THE TARIFF DEBATE.

The tariff debate which closed in the House at Washington Monday night, was the least illuminating debate we have ever followed on the subject, if we are to judge from the telegraphic reports sent out from Washington during the very brief time set aside to discuss the Underwood bill.

Representative Underwood seems to have had his bill well in hand and was so ready in debate with its antagonists, that their opposition has been weak compared with his defense. Republican and Progressive arguments have been considered mostly of twaddle and direful predictions, and if any of them have made a speech that is entitled to profound consideration we have failed to see it. In fact, the Associated Press either overlooked it, or else no really great speech was made during the regular debate.

When the bill was reported from the committee, Mr. Underwood made a masterful presentation of the Democratic point of view and advanced incontestible reasons for the Democratic revisal. With an iniquitous and unjustifiable tariff behind them, the Republicans could not successfully defend the Payne-Aldrich tariff, so they could do but little towards reasserting the Republican policy of protection. Even then, Mr. Underwood successfully proved from the record in the closing hours of debate that the Republicans never knew how to make a tariff law. They know how to make one for special interests and he demonstrated that whenever a protection gladiator arose, only to be discomfited.

King Nicholas, of Montenegro, was compelled to bow to the will of the European powers. This shows that 1913 has brought bad luck to old Nick himself.

CURRENT COMMENT.

A movement for co-operation among farmers is making headway in this county, especially in the States of Minnesota and Wisconsin, where the sons of men from the north of Europe go to a goal undivided by habits of thought of ultra conservatism. There they have co-operative stores, co-operative elevators, and there is co-operation in selling and buying in many communities. One of, and by no means the least, benefits of working in co-operation, as told at the conference of farmers in the Conference of Education in the South at Richmond two weeks ago, is the better feeling engendered among the people who are working together. The greatest bar to securing co-operation, the experts testified, was the general lack of mutual confidence. When distrust is overcome through working as comrades and getting a mutual understanding, the whole community becomes happier. It is easy to understand that this is true.—Columbia State.

The improvement at the State Fair grounds, already planned and described concisely in The Times, are really the beginning of a formal plan for making the fairs greater than ever. The stakes have been set to mark the western boundary of the extended grounds, the new area of almost 19 acres giving what will really be the most commanding and attractive section of all. The separation of the live stock feature of the fairs from the other portions is an important step forward. It has been very well remarked that this is perhaps the very greatest of all the features of a real fair. There will be spacious and sanitary sheds for cattle, horses, sheep and hogs and for the first time these will be shown properly at the fair next October. It amounts to an appreciation of the dignity and the importance of the live stock industry in all its branches. It has been too much neglected.—Raleigh Times.

KILLED "SQUEALER."

Further Operations of the Gun Men in New York City.

New York, April 29.—Suspected of "squealing" to the district attorney, Jerry Maida, known as "Jerry, the Lunchman", met his appointed death on 41st street near Broadway early today. He was shot by gangsters who sent bullets into his body.

The shooting occurred only a couple of blocks away from the scene of the murder of Herman Rosenthal, last July, but the gunmen had less luck than the Rosenthal murder crew. Five policemen who were in the immediate vicinity heard the shots and pounced upon five men whom they accused of the killing.

The police allege that the men caught are members of the Paul Kelly band of gangsters, of which Jerry was an adherent. They say that Jerry had recently fallen under suspicion, however, and that he was thought to be revealing the gang's secrets to the district attorney. None of the men caught were armed, but witnesses said they had seen them throwing revolvers away and three of the guns were found in a garbage can nearby.

The police say that "Guinea Sam" one of the prisoners, was under arrest two years ago in connetcion with the murder of another member of the gang under similar circumstances.

SEARCHED LAKE FOR BODY

Deserters Give Fort Sheridan a Brief Sensation

Chicago, April 29.—Reports of a daring escape by two guard house prisoners from Fort Sheridan who were thought to have murdered their guard and thrown his body into Lake Michigan, were dissipated tonight by the finding of the three deserters crouching among bushes on the dunes by the lake near Glencoe, Ill., a few miles south of the fort.

The entire garrison was turned out to search for the supposed murderers. Charles Rabit and Marcus Wilson, privates of the 27th United States infantry, the captured deserters, were under guard of Private William Clark, of the same regiment. Late today Clark's rifle was found in a pool though to be blood. He and the prisoners had disappeared. The prisoners had been painting a pier under Clark's guard and the lake had been searched for his body while a squad turned out to search for the supposed murderers.

Rabit and Wilson were under sentence to serve three years at Fort Leavenworth penitentiary for desertion.

Pimples Vanish

Pimples and ugly face blotches clear away often in a single night by the use of the mild, antiseptic wash, the **D.D.D. Prescription for Eczema.** It washes away impurities and leaves the skin smooth and healthy.

Get a 50c bottle of this wonderful skin cure today, and keep it on hand. We know and guarantee that D.D.D. will do all that is claimed for it. D.D.D. Soap helps, too; ask about it.

KINDERGARTEN UNION.

Several Countries Have Representatives at Washington Meeting.

Washington, April 29.—Attended by several hundred delegates from all sections of the United States and abroad, the National Kindergarten Union formally opened its 20th annual convention here tonight. During the convention's sessions which will continue for four days, all phases of the subject of "Child Welfare" will be discussed.

Preliminary conferences were held during the day at which the questions of standardization of kindergarten training schools and problems relating to methods in the use of material in the kindergarten were discussed. Many of the delegates spent part of the day in studying the 42 kindergartens of the national capital.

Tonight's session was formally opened by Miss Mabel A. Mackinney, president of the Union, who reviewed the work of the organization during the year. The principal address was by Dr. Thomas M. Balliet, of New York, on "The problem of moral education."

OF INTEREST TO WOMEN

Miss Duncan, of Oklahoma, Makes Few Plain Statements for Publication in Interest of Women.

Chapel, Okla.—"Please print this letter," writes Miss Mollie Duncan of this place, "as it may reach, and help, some poor suffering woman.

For 17 years, I had been afflicted with womanly troubles, and had tried different treatments, but none of them helped me any. I suffered so much I could hardly bear it.

I had such drawing down pains, and a pain in my side. Also headache and those awful dizzy spells. I was very weak, and could not be up, at times. I decided to try Cardui, the woman's tonic, and I will say I am not sorry that I did, for it helped me wonderfully. I feel like an entirely new person. I can wash all day now, and attend to my other household duties, and not feel tired when night comes.

I intend to keep Cardui in the house just as long as I live, for it has done me so much good."

Cardui is the ideal tonic remdy for women. Its ingredients are especially adapted for women's needs. It soothes pain, helps weakness, nervousness, dragging sensations, headache, backache, and other symptoms of womanly trouble.

Cardui is purely vegetable, and has no bad after-effects. Is good for young and old.

Try Cardui.

N. B.—Write to: Chattanooga Medicine Co.; Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper.

Men's Clothes Are Not Always to Be Judged By Their Price

(Copyrighted, 1913, A. B. Kirschbaum Co.)

FOR example, a $15 suit of ordinary clothes bears little or no comparison with a $15.00 **Kirschbaum** suit.

Kirschbaum Suits have established new standards of value—the greatest clothes value for the money in America.

The proof is in the Kirschbaum Guaranty, the broadest, most binding guarantee in clothesdom.

This guaranty, remember, carries with it the penalty of "a new suit, or money refunded," if any real cause of dissatisfaction develops.

Kirschbaum Clothes, $15, $20 and $25—the Greatest Values in America.

Besides all-wool fabric, thoroughly shrunk by the London Cold-water Process, and expert hand-tailoring with richest of trimmings and nicety of finish—the correctness of style is guaranteed.

Let us show you the new Kirschbaum models that express the last word in Fashion. Stunning shades in gray, tan, blue, etc.—fascinating new weaves—cut in smartest styles.

Only the great popularity and vast sales of Kirschbaum Clothes make these specials possible at $15, $20 and $25.

Straw Hats in all the newest straws and shapes; also Panamas Hats.....$3.50 to $7.50

The Famous Chas. A. Eaton Shoes and low shoes..$3.50, $4.00 and $5

SEVERE DAMAGE BY HAIL

Reports Yesterday Indicate Fall of Hail Monday Was Pretty General in This Section—Damage to Fruit and Berries.

Not only from Chadbourn, as reported in The Star yesterday morning, but from all around the country come reports of a very severe hail storm Monday afternoon. Capt. R. P. Paddison, of Point Caswell, Pender county, who was in the city yesterday, says the hail there was particularly severe. It occurred about 3 P. M., and the ground was fairly covered to a depth of a half inch thick.

Fruit and foliage was literally stripped in the fruit orchards and Capt. Paddison says there will be very little if any fruit in that immediate vicinity.

Capt. Paddison was inclined to believe that the hail precipitation was confined to a small scope of country, but the steamer City of Fayetteville, which arrived in the city yesterday morning at 6:30 o'clock from Fayetteville, reports that he passed through a terrific hail storm on the Cape Fear in the vicinity of White Hall, Bladen county. It hailed for nearly an hour, and huge hailstones continuously pelted the decks.

The probability is that little damage has been done to ordinary crops as they were not far enough advanced, but such crops as strawberries, now being gathered, must have suffered severely.

According to the Cotton Region Bulletin issued yesterday by the Weather Bureau, Goldsboro reported hail and Lumberton a light hail.

Reports yesterday from the Chadbourn district in regard to the damage done by hail Monday, which could not be learned Monday night, stated that apparently the bulk of the damage inflicted was to berries ready for picking, which would have been picked Monday and shipped in good condition but for the hail, which put them in bad condition to carry. The future of the crop doesn't seem to have been so greatly affected. Forty-one cars were placed for loading in the Chadbourn belt yesterday, but it was hardly expected that all would be used last night. Along the Weldon road 20 cars were placed for loading. Five cars were placed here for lettuce and while it was rather doubtful if all would move last night, it was thought that they might all go forward. It is stated that the carrying qualities of the berries, due entirely to their condition at shipping points, has not been very satisfactory.

THE RECORDER'S COURT.

Larceny Cases Take Front Seat in Yesterday's Session.

Yesterday's session of the Recorder's court was another rather slim affair. Larceny cases took the lead on the docket. John Eady was bound over to Superior Court in the sum of $100 in a case charging him with embezzlement. The allegation was that Mrs. Rothchild gave him $5 to buy milk and oysters, and that he never came back.

Coon Davis was before the court on three counts, each charging larceny, one of a cart belonging to The Star, another of sugar belonging to the S. A. L., and a third of a suit of clothes, shoes and a watch belonging to one Ely Pollock. He will be heard this morning.

Another negro named Alex Lyon, charged with stealing towels from the A. C. L., was held for trial May 12th, on account of the inability of Plainclothesman Leon George to appear and testify, he being in the hospital for a minor operation.

Andrew Evans was up for carrying a pistol, for shooting it in the city limits, and for lingering around the cup that cheers and makes for trouble. He was fined $25 for carrying the gun, and paid the costs in all three cases. The case against John Whiteman, colored, cruelty to animals in that he was working a mule with a sore back, was left open till this morning.

Joe Humphrey for assaulting Penny Smith, received three months. Recorder Furlong is determined to break up the habit of some men of beating up women. Willie Smith, a young white man, submitted to a charge of disorderly conduct, and was released on payment of costs.

NO BIDS FOR COUNTY BONDS

Stringency of Money Market Prevents Sale of Mecklenburg Paper

Of interest to New Hanover county, in view of the fact that it may want to sell some bonds later on, was the total absence of bids on $325,000 worth of bonds offered for sale by Mecklenburg county, Monday. The stringency in the money market at this time is given as the cause of the failure of the Mecklenburg Commissioners to dispose of the bonds, which were for permanent improvements, in denominations of $1,000 each. A further contributing cause is the iron-clad condition that the bonds shall not be sold for less than par at more than 4 1-2 per cent interest. They were to run 30 years. The bonds were issued by a direct act of the last General Assembly, without submitting the matter to a vote of the people. It was planned to pay off all outstanding indebtedness of the county and use the remainder of the money for improvements.

The fact that nobids were forthcoming is significant of the undoubted tightness of the money market, and the incident concerns New Hanover, if the condition continues and the voters endorse the proposition to issue $100,000 for good roads and bridges or the $175,000 for modern school buildings, or both; for if these bonds are voted, they will be on the market in no great while after the election May 27th.

The bond issues are being discussed by the people, and while some oppose and some favor, all are agreed that the county stands in need of more modern road work and of modern, fire-proof school buildings equipped with those things that make for education and protection.

A SUNDAY NIGHT BURGLAR

Visits Mr. R. G. Grady's Home But Tarries Only Short Time

About 8:30 Sunday night while members of the family were sitting in a front room of the residence of Mr. R. G. Grady, No. 108 Nunn street, footsteps were heard in the hallway, and Mr. R. G. Grady immediately left the room to investigate. His entrance into the hall was followed by a noise as of a man leaping up the stairs in great haste, followed by the slamming of a door. A neighbor with a shotgun came hurriedly and the police were called, but when the room which the intruder entered was searched, no trace of a burglar was found. The electric light was turned on, however, and a window was open. The mysterious visitor had made his escape through the window, down some vines, and was off.

MEETING OF STOCKHOLDERS

Board of Directors of Tidewater Power Co., Refer Commuters' Rate Matter to Executive Committee—Meeting.

At the annual meeting of the stockholders and directors of the Tidewater Power Company held in the offices of the company, No. 217 Princess street, yesterday at 11 o'clock, the subject of a commuters' rate on the suburban line, in which the public most affected is vitally interested, was referred to the executive committee for action, and it is generally understood that announcement of such rate will be made at no distant date.

The stockholders' meeting was presided over by President Hugh MacRae, whose report of the condition of the company was very pleasing to the stockholders. Following routine business, the stockholders went into the election of directors and the incumbents were all re-elected. They are Messrs. Hugh MacRae, M. F. H. Gouverneur, M. J. Heyer, G. H. Smith, H. C. McQueen, J. V. Grainger, W. B. Cooper, C. N. Evans, Oscar Pearsall, Jurgen Haar, J. G. L. Gieschen, Eduard Ahrens, C. E. Taylor, Jr., James H. Chadbourn, George R. French, C. W. Worth and Junius Davis.

These met after the adjournment of the stockholders' meeting and elected officers for the ensuing year. Mr. MacRae was named president; Mr. M. F. H. Gouverneur, first vice president; Mr. M. J. Heyer, second vice president; Mr. R. J. Jones, treasurer; Mr. H. Woollcott, secretary; Mr. A. B. Skelding, general manager; Mr. W. W. Randolph, consulting engineer, and Mr. F. W. Dick, financial agent. The executive committee is composed of Messrs. MacRae, Gouverneur and Heyer.

In the discussion of the subject of the commuters' rate, decision was made for such rate but, as stated, it was left to the executive committee. It is rumored that the rate will be 30 cents for the round trip, instead of 33 1-3 cents as now, when three tickets for a dollar are purchased. The commuters had hoped that the company would give a rate of 25 cents a round trip.

THE WILMINGTON PLAN

Adopted by Columbia in Inaugurating Campaign for a Cleaner City

Mayor Smith yesterday received from the Columbia, S. C., Chamber of Commerce a request for a copy of the Wilmington health laws. Mayor Smith said that he would turn the request over to Dr. Chas. T. Nesbitt, city superintendent of health. Copies of the new ordinances of the city, including all the health regulations, have just been issued and one of these will be sent to the Palmetto city.

About ten days ago a committee representing the Columbia Chamber of Commerce visited this city for the purpose of studying the health methods that have been used by the local health department for the past two years. The committee was very favorably impressed not only with the methods but with the results that have been achieved, as was told in The Star at the time. Monday afternoon there was a meeting in Columbia of the Chamber of Commerce health committee and representatives of the City Council, the Homekeepers' Association, the Civic League and the commercial body's board of directors, at which the campaign for a" cleaner Columbia" was inaugurated. This was the first meeting since the committee returned to Columbia after its investigations in this city.

"Perhaps the most important point brought out at the meeting," says yesterday's Columbia State, "was that there is need of 'a cleaner Columbia.' This established, steps were taken to provide correctives. The sub-committee on publicity and literature was authorized to have printed several thousand posters and circulars setting forth the importance of 'swatting the fly.' This committee will meet again Thursday afternoon at 4 o'clock. As another means to obtain a sanitary city 500 cards were ordered printed to be distributed among the health workers, who will use them to report by mail to the city health officer all unsanitary conditions coming under their observation. A campaign of education pertaining to all phases of sanitation will be begun at once, through the newspapers especially."

Readers of The Star will recognize in the above the Wilmington plan as put in operation by Dr. Nesbitt. The following paragraphs taken from the same article will also be of interest here:

"E. S. Dreher, chairman; Prof. L. P. Chamberlayne and Hazlett N. Clark, the sub-committee which went to Wilmington, N. C., to study the methods of sanitation in that city, made its report, which included charts showing a remarkable decrease in the death rate in the North Carolina city since Dr. Nesbitt began his campaign there, and has systematized matters. Dr. Nesbitt, it was said, met with so much opposition at first that certain factions threatened to drive him out of the city.

"Dr. Nesbitt is of the opinion that much can be done even if authority does not back him in every case. His educational campaign, it is said, has worked wonders.

"Columbia, it was pointed out yesterday, will not have to contend with conditions that obtained in Wilmington, which it is said, were appalling. Dr. Boyd, who was present in the name of the health board, stated that the work of the Chamber of Commerce committees and the women's societies would be most welcome, and assured them of the health board's co-operation. Prof. Dreher stated that he was confident that City Council would co-operate in every reasonable way.

"One of the greatest sources of disease in Wilmington, it was reported, was the surface closets. Dr. Boyd, in answer to a question stated that in Columbia there are 2,500 such places. For the solution of the garbage problem Dr. Boyd proposed an incinerator, and Prof. Dreher, speaking from information obtained in Wilmington, said that one could be built for $34,000."

Recorder's Room Being Finished.

The new quarters for the Recorder's court, in the basement of the Court House, opening upon Princess street, will be finished in no great while. The room is comparatively small and on big court days will not begin to accommodate the throngs which have been in the habit of attending the sessions. However, it is large enough for the transaction of business and will accommodate the parties most interested in any case. The mere spectators will have to stand outside. The room will have a seat running around one side and will be lighted by electricity. A tiny platform will be occupied by the Recorder, and a still smaller platform at his right is for witnesses.

DR. M'CLURE TO ODD FELLOWS

Ninety-fourth Anniversary of Odd Fellowship Celebrated Last Night by Local Odd Fellows—Occasion Very Pleasant

The four subordinate lodges of Odd Fellows and the local chapter of the Daughters of Rebekah at 8:30 last night celebrated the 94th anniversay of the founding of the Independent Order of Odd Fellows in the lodge rooms, Odd Fellows building, corner Third and Princess streets. The chief feature of the occasion was an address by Rev. Dr. Alex. D. McClure. The attendance was large and the event was enjoyed by all.

The programme began with the singing of the opening ode of the order, followed by prayer by the chaplain, Mr. R. P. Joanson. Then the proclamation was read and the anniversary exercises carried out.

Dr. McClure was then introduced by Mr. S. A. Mattnews in the happiest of short talks, in which he paid high tribute to the orator of the evening, likening him to the Good Samaritan, going about doing good, visiting the sick, comforting the distressed, encouraging the dispairing and cheering them on the way. The introduction was a gem and was very highly appreciated by the audience.

Dr. McClure spoke of Odd Fellowship, its aims and purposes, lessons of fraternity and brotherhood, of morality and religion, praising the order for its good work among men. He spoke for about 40 minutes and the lofty tone of his address lifted it above the plane of the ordinary address on such occasions until it approached the nature of a powerful sermon that reached the hearts of all. The audience found it interesting, entertaining and inspiring, and the Odd Fellows congratulated themselves on having had the privilege of listening to it.

The meeting was called to order by Mr. H. O. Craig, chairman of the joint committee appointed from the four lodges to plan the celebration of the 94th anniversary, who then gave way to Noble Grand Jos. D. Smith, who presided. The other officers of the 94th anniversary meeting were: Past Grand, P. A. Bounds; Vice Grand, John E. Silva; Secretary, S. F. Harrison; Treasurer, Robt. Tucker, Jr.; Warden, E. P. Fearrington; Conductor, L. G. Landen, R. S. N. G., H. H. Hall; L. S. N. G., G. D. Bradshaw; R. S. V. G, Chas. J. Carter; L. S. V. G., M. Hewitt; R. S. S., Frank Lafella; L. S. S., J. T. Hawkins; Inner Guard, E. D. Craig; Outer Guard, C. T. Johnson; Chaplain, R. P. Johnson. Present also were the following Grand Lodge officers: Past Grand Master John D. Bellamy; Past Grand Master, M. W. Jacobi; Grand Treasurer, R. J. Jones; P. C. P., L. L. Boon; P. C. P., Wm. L. Smith.

The joint committee was composed of Mr. H. O. Craig, chairman; Mr. J. E. Wood, secretary, and Messrs. W. H. Voup, Jos. D. Smith, A. T. Parker, J. F. Lillington, C. R. Spooner, M. W. Jacobi, Wellington Tatum, L. E. Thomas, R. J. Shepard and S. A. Matthews.

SOME TROUBLE AT DELGADO

Resenting Slap Given Child, Mr. E. D. Hewlett Strikes Mr. Holloman

Monday night at Delgado, after a child of Mr. E. D. Hewlett had been slapped by Mr. Joe Holloman for making fun of him, Mr. Hewlett attacked Mr. Holloman with a "round shave," a tool used to chip pine trees, and knocked him down, insensible. Evidently thinking he had killed the old man, Hewlett left. Deputy Sheriff Reynolds, who lives near the scene of the trouble, was called and he followed Hewlett to the city and reached the foot of Market street just in time to see the man leaving the ferry on the Brunswick side of the river. Mr. Holloman regained consciousness and found he had a pretty painful wound on the head, but yesterday was reported as in no serious condition.

CITY BASEBALL LEAGUE

Organized Last Night and Opening Game Scheduled for Saturday

The City Baseball League was organized last night at a meeting of the players and others interested at the Boys' Brigade armory and the first game will be played Saturday afternoon at Hilton Park. The season will continue through August. Four teams compose the league and in each aggregation there are some of the city's best baseball players. At the meeting last night Mr. Leonard Gore was elected president and Mr. Leon Child was selected as official scorer. Other officers will be elected at a later meeting.

Following are the teams that compose the league and the managers of each: Company B team, Harry Register, manager; Rattlers, Mack Wilson, manager; Giants, C. W. Davis, manager; Athletics, Harry Bell, manager.

Four Women Battle Last Night.

There was somewhat of a battle out on the Tchatalja lines of Ninth and Nixon streets last night when Josephine Lee and Estelle, Hannah and Julia Green pulled off a four-cornered affray of such proportions that the officers had to pinch the lot of them and send them in to police headquarters. There it was alleged that Josephine had stabbed Estelle Green in the shoulder, but the wound was insignificant. The wounded woman had two small children, and the police let her go, sending along her sister Julia to take care of her. The Lee woman gave bond, and was released, but Hannah Green could give no bond and was locked up.

Building Permits Issued.

Building permits have been issued as follows: Jessie Wilder, one-story frame dwelling on 13th street, between Castle and Queen, estimated cost $500; H. L. Herring, one-story frame dwelling on Marstellar street, between Third and Fourth, cost $700; G. W. Brown, two-story frame dwelling on Miller near Wood street, additions, $300; Moses Brown, one-story frame addition, on Orange, between 11th and 12th streets, $150; Hetty Brooks, colored, one-story frame dwelling on 12th street, between Orange and Ann, $550.

Seashore Cafe to Open

Announcement is made by Manager Edgar L. Hinton, of the Seashore Hotel, Wrightsville Beach, that the cafe of the hotel will be open after tomorrow. Mr. J. A. Apter, steward of past seasons, is already on hand, and the personnel of the hotel staff has been about completed. The popular Seashore Hotel has been thoroughly overhauled, 25 new rooms with baths added, porches enlarged and the lobby and dining room made larger and modern in every respect.

A special invitation is extended to parties interested in electric pleasure cars to visit No. 9 North Third street today and tomorrow. LaFayette Motor Car Co. (advertisement.)

LAST REGULAR MEETING

Present City Administration Will Give Way to Another Within a Week. No Business of Special Importance Today.

The last regular meeting of the present City Council will be held this morning, beginning at 9:15 o'clock. At the regular meeting Wednesday of next week the personnel of the Council will be changed entirely. It is a question that only a battle of ballots next Monday can decide as to whether the present administration will be represented at all in the incoming administration.

If Councilman P. Q. Moore receives a majority of the votes for Mayor in the election Monday the new administration will have one representative from the present body, otherwise it will be an out-and-out new governmental body.

Only two members of the present Council aspired to have a part in the next administration and both of these were in the race for Mayor. Only one survived the primary on April 22nd and he will be in the election with ex-Mayor Wm. E. Springer on Monday of next week.

There is nothing of any special interest to claim the attention of Council this morning, it was stated at the City Hall yesterday afternoon. Mayor Smith said that all he knew to be scheduled for this morning was the appointment of Mr. Paul L. Cantwell as city tax lister and perhaps the matter of making a payment on the incinerator that is now in course of construction.

The farewell meeting of the present Council will probably be held Saturday of this week. It might be held earlier, but the chances are that the Councilmen will prefer that day. Monday is election day and on Tuesday the new Mayor and Councilmen take charge.

Conspicuous on the Mayor's desk yesterday was an advertisement clipped from a newspaper, bearing these words in large black type: "Delighted! Only a Few More Days Are Left." Mayor Smith seemingly gets much comfort out of the thought that his days in an official capacity are numbered. On Tuesday he will turn over the office of Mayor to his successor and on Wednesday he expects to leave for Harnett county, where he owns a farm and where he expects to spend most of the Summer.

NAVAL STORES CO. MONDAY.

Recently Chartered Concern Will Hold a Meeting First of Week.

The Wilmington Naval Stores Company, recently chartered by the State with $10,000 paid in capital, will hold a meeting Monday for the purpose of making preliminary arrangements for beginning operations. The organization of the company has not been completed, owing to delays, sometimes caused by the absence of one or more of the gentlemen interested. The naval stores world has been more or less in an unsettled condition ever since the American Naval Stores Company suspended operations as a result, it is said, of the suits against it by the United States government of both civil and criminal nature, and the market has been uncertain.

The committee of the Chamber of Commerce having to do with naval stores quotations, composed of Messrs. Jesse Wilder, chairman; J. W. Brooks, R. R. Stone, John S. McEachern and F. A. Thompson, has decided to change the method of quoting prices on tar because of the varying size of the casks in which the commodity is handled, and at a meeting arranged for quotations by the gallon, which at present is nine cents. This does away with the difficulty in quoting by the standard 280-pound cask when the tar comes on the market in all sorts of sized kegs and barrels.

NEW SCHEDULE TOMORROW.

Tidewater Power Company Announces New Car Service.

Announcement was made yesterday by the Tidewater Power Company of the new Spring schedule, which goes into effect tomorrow, May 1st. The present schedule for cars up to 1 o'clock in the afternoon is not disturbed, but from 2 to 5:30 P. M. cars will leave Front and Princess streets every half hour, and will leave Wrightsville Beach every 30 minutes from 2:45 to 5:45. At night cars leaving the junction at 6:10, 6:40, 8:30 and 10 o'clock P. W., will go to the beach, and the car leaving the junction at 11:15 P. M. will go to the beach on request, but the 7:10 car from Front and Princess will go only as far as Wrightsville. Saturday afternoons a car will leave the junction at 1:30 P. M. to favor those who get a half-holiday Saturdays, but who cannot leave their work in time to catch the 1 o'clock car.

FREE TRIPS TO SUBURBS

Realty Men Want Public to See Development of Suburban Properties

The realty men interested in suburban properties along the line of the Tidewater Power Company, including Winter Park, Idlewild, Highwood, Audubon, etc., have arranged with the Tidewater Power Company for cars to carry people free of charge to these properties for the purpose of showing the public the development that has taken place and that is now going on, and to give them an idea of what the future holds in the attractive country between the city and Wrightsville Beach. Starting tomorrow, two cars will leave the junction each afternoon during May, one at 2:45 and one at 3:45 o'clock, and these will stop at any and all the stations named. Tickets good for the return trip will be furnished, and the return can be made on any suburban car.

WILL HOLD MEETING HERE

Series of Services Will be Held at First Presbyterian Church

Rev. Dr. A. A. McGeachy, pastor of the Second Presbyterian church, Charlotte, will be in Wilmington all of next week to conduct a series of services at the First Presbyterian church. He will begin next Monday night. Dr. McGeachy is a very able minister and he will doubtless be heard by large congregations. The hours for the services will be announced later.

Closing Hours of Clothiers

The clothing merchants of the city have signed an agreement to close their stores in the Summer months at 6 P. M. and in the Winter months at 6:30 P. M. The days excepted are Saturdays, the first day of each month, and one week during the Christmas holidays. The agreement is effective Friday of this week. The following clothiers signed the agreement: Norfolk Tailoring Co., J. M. Solky & Co., Southerland & Weaver, Shrier & Solomon, I. Shrier, Munson & Co., The A. David Co., Fleet-Davis Co.

LISTERS START TOMORROW

Books Will Open for the Listing of Polls and Property May 1st

Tomorrow, May 1st, marks the beginning of the taxlisting season. The entire month of May will be given over to listing polls and property, and during June the taxlisters will be busy writing up their lists from the abstracts. Capt. T. O. Bunting will list for the township and Mr. Paul C. Cantwell for the city. Both will occupy the same quarters in the southwestern corner of the Court House basement, so that when a citizen of the city lists his property, he may also list with the county.

Owing to the fact that the abstracts and tax lists are more comprehensive than ever before, being in amplified form, it will take longer, perhaps, to do the work than ever, and with this in view, citizens are urged to begin listing the first day. Usually the first eight or ten days there isn't enough work to keep one man busy, and towards the close of the month everybody rushes in and if they have to wait, why they fume and fret. Do it now, is the injunction passed out.

Owners of suburban property are to be notified that when they list the same, they will be expected to know the location of it, and be able to furnish a description, giving the lot and block number.

By July 1st it is expected that every tax list will be ready for the County Commissioners, who, after the amount of property listed has been ascertained, then go ahead and make the annual tax levy.

Improvements About Finished

The extensive improvements which have been in progress on the building at the southwest corner of Front and Princess streets, owned by Mr. A. O. Schuster and occupied by Shrier & Solomon, are about finished. The entire building from the basement up has been repaired, remodeled and painted. The basement of two rooms, one of which will be occupied by Mr. T. D. Meares, Jr., insurance, is ceiled in metal, has terrazzo floors and is very modern in furnishings. The front is perhaps the most expensive in town. It has large plate glass show windows topped with prism glass framed in bronze, and the window floors are laid in beautiful hardwood, while green Vermont marble forms the baseboard. The interior of the building is very attractive and the self ventilating windows are among the few of that kind in the city. The plans were made by Mr. J. F. Leitner, architect, and the Boyle-Robertson Construction Co., had the contract.

Silent Waverly—the last word in Electrics. Ask Hunt at No. 9 North Third street. (advertisement.)

Notice Mariners!

The following is from the "Notice to Mariners," issue of April 25th: "North Carolina—Frying Pan Shoals: Frying Pan Shoals light vessel, No. 94, replaced by relief light vessel, No. 29, April 22nd. The change is temporary. Light vessel No. 29 shows two fixed white reflector lights, of 1,300 candle-power, visible about 12 miles, instead of one 4th order fixed white oil vapor light. Fog signal on light vessel No. 29, is a bell struck by hand instead of a steam chime whistle. Relief light vessel No. 29, has no submarine bell and is not equipped with wireless apparatus.

TO THE PUBLIC

The original announcement of my candidacy was as follows:

"I take this method to announce my candidacy for the office of Mayor of the City of Wilmington. In doing this, I wish to say, that I intend to conduct a campaign upon a high plane, appealing alone to the fairness and intelligence of our people, and not to their passion or prejudice. I shall not permit myself to be drawn into any controversy, and would rather be defeated conducting a clean and fearless fight for good government, and the moral uplift of my town and its citizenship, than be elected, by resorting to methods and practices of influencing voters that would be questionable.

"If elected I shall stand for the enforcement of law and order at all times, and I shall do all in my power, if elected, to place the city upon a higher plane than she has ever been before.

"I stand for a progressive government, progressive in commerce, progressive in morals, progressive in every avenue of life, that tends to a development of higher ambitions and loftier ideals. At the same time, I shall stand for the economical administration of the affairs of government so long as economy does not cripple any branch of the city's administration. If elected, I shall devote my whole time, talents and best efforts to making Wilmington second to no city in the South, and I shall appreciate the support of all who are willing to help me in the development of this the greatest seaport town on the Atlantic coast."

I emphatically reaffirm every clause of the above.

Respectfully,

PARKER QUINCE MOORE.

April 29th, 1913.

STEAM PUMPS

When you buy a Boiler Feed or a Steam Pump, get the best Brass Lined Bronze Rods and Metallic Valves. We have a stock of all sizes of the Gardner Steam Pump and can supply your wants at once.

We also handle the Brownell Boilers and Engines—Patrol Watchman's Clock—American Saw Mill Machinery. Consult with us. We are prepared to save you in fuel and cash.

WILMINGTON IRON WORKS

"THE IRON MEN".

Orange and Water Streets.

WILMINGTON, N. C.

CARRIERS DECLINE TO ADJUST RATES

(Continued from Page One.)

do something for the relief of the people, what they will do for the railroads will be a plenty." Under present conditions no great wholesale business can be built up in this State.

R. L. Steel, wholesale grocer of Greensboro, specified gross injustices in rates suffered in his section to which the railroads have for years turned deaf ears.

Editor Norman Johnson reviewed the struggles of North Carolina shippers for relief and the deaf ears that the railroad officials have turned to their importunities. Ambitious dealers have been forced to go to Virginia cities to conduct their business or maintain warehouses both in North Carolina and Virginia.

W. R. Foreman, shoe dealer, of Charlotte, told of the handicap that his firm has to face in doing business in this State, and Secretary J. Leake Carraway, of the Greater Charlotte Club, told of the intense interest there is in Charlotte as to the settlement of the rate matter. There was a city election on there today, but in spite of this there were 50 of the leading business men here for this conference demanding immediate relief. A resolution by the Charlotte delegation was presented setting out that it is the sense of the delegation that no compromise should be accepted that does not give to North Carolina shippers on incoming and outgoing freight an equal basis with the others.

The first session of the conference beginning at noon and continuing until after 2 o'clock was taken up with the reading of the 48-page typewritten booklet by the railroad officials in answer to and criticism of the proposition of the commission April 19th, that North Carolina be given a rate based on the local rate of the Southern, Danville to Washington. It insists that the rate in its application would prove disastrous in that the North Carolina carriers would have to bear the whole burden, suffering the wiping out of all net revenues. It set out ten conditions under which the commission's proposal would violate the long and short haul clause of Federal regulations, doing especially with rates from Cincinnati and Louisville to Virginia cities and thence into certain North Carolina zones. It would give zone No. 1 a lower rate from the West and from Baltimore than that of Virginia cities; would give to all the other North Carolina zones lower rates than the rates to those points from Virginia cities; that the rates proposed from Cincinnati to Wilmington would be lower than intermediate destinations, the proposition making these rates lower than required by water competition, thereby depriving the carriers of any justifying reason for higher rates to intermediate points.

These were the principal features of the ten exceptions which set out that the whole scope of rates in several Southern States would be affected with disastrous results on the revenues of the railroads, and without in the end giving any relief to the North Carolina shippers, since similar concessions would be forced on the railroads by other competing sections.

When the conference reconvened at 4 o'clock the commission presented through Representative E. J. Justice an answer in which the position and arguments set out in the railroad's reply were characterized as "specious and narrow criticisms" of the last proposition of the commission, with no indication or prospect for any adjustment. If the roads had no further proposition to make the conference might end at once, but that if they did have any further suggestions of settlement in mind, please to name it. He said that as for the commission it did not recognize the force of the exception to the effect of its proposed reduction of zone No. 1 as giving lower rates than Virginia cities had and the commission would be willing to wipe out that zone and apply the second scale for the two zones. They recognized that there must be specific cases of defective application of the basis but that these could be adjusted as the application of an agreed principle proceeded.

The reply of the commission was delivered in writing to the railroad officials and after an executive conference, request came for adjournment to Wednesday noon for framing a reply, this being granted.

Chairman Travis, of the Corporation Commission, took a considerable hand in the discussion of the issues today dealing especially with discriminations on the Southern Railway west of Greensboro, tending to show not only gross discrimination but violations of the long and short haul clause by the railroads, a principle he said they are now coming into the conference and insisting that they could not violate. He held that there would be less violation of this principle under the proposed readjustment laid down by the commission than there is at present under the rate system and basis so objectionable.

OLYMPIC GAMES ASSOCIATION.

Name Changed, and European Athletes Are Expected.

Chicago, April 29.—The American Olympic Games Association," which plans to hold a week's athletic carnival here from June 28 to July 6th, changed its name to the "International Athletic Championships Association," today, at a meeting which followed the receipt of an urgent cable message from Baron Coubertin, of Paris, professional of the International Olympic Committee.

Baron Coubertin requested the committee to make a change to a name that would not conflict with the title of the International Olympic organization.

At the time the change was made the directors of the Games Association made public a message from James E. Sullivan, secretary-treasurer of the A. A. U., that he was "confident that the A. A. U. National championships would be awarded in Chicago."

Widespread international co-operation was promised the Chicago Games Committee by Baron Coubertin in his message requesting the change of name. This is interpreted to mean that in addition to the Swedish athletes who won points at Stockholm, and the Oxford and Cambridge athletes from England, whose presence alread is assured, the games will attract leading athletes from other European nations.

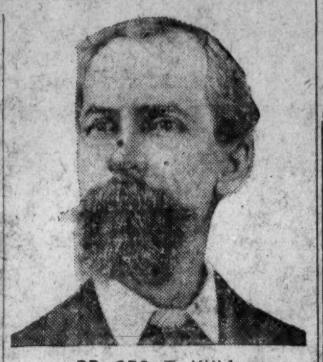
GOT HIS FACE SLAPPED.

Bad Blood Between Legislators in Florida.

Tallahassee, Fla., April 29.—Because Representative Floyd, of Apalachicola called him a railroad lobbyist, Senator Charles E. Davies, of Madison county, this afternoon slapped the representative in the face as he sat at his desk. The latter arose, but friends succeeded in separating the two men before any more damage was done. The attack followed a fiery speech on the eight-hour law, in the House, in which Floyd attacked the railroad lobby and named Davies among others as being in its employ.

A Staple Medicine For All Families

From Infancy to Old Age a Reliable Family Laxative is Most Needed—Try This One.



DR. GEO. T. HULL.

It is inconceivable in this day of general intelligence that any family would be without a simple remedy for the minor ills of life, for often by giving such a remedy in time a serious disease can be frustrated and a life saved.

For example, if at the first sign of a cold a simple laxative-tonic like Dr. Caldwell's Syrup Pepsin were given the beginning of a serious lung affection of of a typhoid fever might be avoided. And also in headaches, nervousness, etc., a small dose of this remedy would relieve the congestion and replace distress with comfort. Mothers give it to tiny infants and little children, and grown people take it with equally good effect.

Thousands of good American homes are never without it, among them the home of Dr. Geo. T. Hull, Prop. Hull Drug Co., Prue, Okla. Dr. Hull has for a number of years recommended Dr. Caldwell's Syrup Pepsin in his practice and writes that "for stomach and bowel disorders, worms in children and a general laxative-tonic it has no equal." Syrup Pepsin saves the health of the family, and it saves doctors' bills. It is a guaranteed cure for any form of stomach, liver and bowel trouble, constipation, indigestion, billiousness, gas on the stomach, headaches, drowsiness after eating, etc. Have no hesitancy about giving it to any member of the family, however young or old, for it contains nothing injurious to the youngest person.

A bottle can be obtained at any nearby drug store for fifty cents or one dollar. The latter size is more economical and is bought by those who have already convinced themselves of its merits. Syrup Pepsin users learn to discard pills, salts, cathartics and purgatives generally as they are too great a shock to any average system.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

JAPANESE RIGHTS ARE CONSIDERED

(Continued from Page One.)

are citizens or subjects, and not otherwise.

Section 4. Whenever it appears to the court in any probate proceeding that by reason of the provisions of this act, any heir or devisees cannot take real property in this State which but for said provisions, such heir or devisee would take as such, the court, instead of ordering a distribution of such real property to such heir, or devisee, shall order a sale of said real property to be made in the manner provided by law for probate sales of real property, and the proceeds of such sale shall be distributed to such heir or devisee, in lieu of such real property.

Section 5. Any real property heir after acquired in fee in violation of the provisions of this Act by any alien mentioned in Section 2 of this Act, or by any company, association, or corporation mentioned in section 3 of said act shall escheat to and become and remain the real property of the State of California. The attorney general shall institute proceedings to have the escheat of such real property adjudged and enforced in the manner provided by Section 474 of the political code and title 8, part 3, of the code of civil procedure. Upon the entry of such final proceedings, the title to such real property shall pass to the State of California.

The provisions of this section and of sections 2 and 3 of this act shall not apply to any real property hereafter acquired in the enforcement or in satisfaction of any lien now existing upon or interest in such property, so long as such real property so acquired shall remain the property of the alien company, association or corporations acquiring the same in such manner.

Section 6. Any lease, hold or other interest in real property less than the fee, hereafter acquired in violation of the provisions of this act by any alien mentioned in Section 2, of this Act, or by any company, association, or corporation mentioned in Section 3, of this Act, shall escheat to the State of California.

The attorney general shall institute proceedings to have such escheat adjudged and enforced as provided in Section 5 of this Act. In such proceedings the court shall determine and adjudge the value of such lease, hold or other interest in such real property, and enter judgment for the State for the amount thereof, together with costs. Thereupon the court shall order a sale of the real property covered by such lease, hold or other interest, in the manner provided by Section 1271 of the Code of Civil Procedure. Out of the proceeds arising from such sale, the amount of the judgment rendered for the State shall be paid into the State treasury and the balance shall be deposited with and distributed by the court in accordance with the interest of the parties therein.

Section 7. Nothing in this act shall be construed as a limitation upon the power of the State to enact laws with respect to the acquisition, holding or disposal by aliens of real property in this State.

Section 8. All Acts and parts of Acts inconsistent or in conflict with the provisions of this Act are hereby repealed.

President is Worried.

Washington, April 29.—Practically all of today was devoted by President Wilson to consideration of the situation arising from California's projected anti-alien land law.

The President was in frequent telegraph communication with Secretary Bryan at Sacramento and laid the entire subject before the Cabinet at a two-hour meeting. He also conferred at different times during the day with John Bassett Moore, acting Secretary of State, who in turn was visited by Viscount Chinda, the Japanese ambassador. No telegrams from or to Secretary Bryan were made public at the White House. Mr. Moore declined to discuss the negotiations and reticence was maintained at the White House.

That the President was somewhat worried about the outcome of the situation was the only impression gained from those who had talked with him about the question today. As far as could be learned today, the attitude of the National government still is one of hope that if an anti-alien bill, if passed at all, will be along the lines of laws existing in New York, Missouri, Minnesota and other States.

VIRGINIA EDUCATOR DEAD.

Dr. William Morris Fontaine Dies Suddenly Yesterday.

Charlottesville, Va., April 29.—William Morris Fontaine, for 30 years head of the school of natural history and geology at the University of Virginia, died suddenly today at the home of Prof. Paige, dean of the university. President Fontaine, a native of Louisa county, Virginia, was 77 years old and unmarried. He was distinguished in the scientific world for successful researches in fossil botany. He served in the Confederate army as a first lieutenant of ordnance.

TO BUILD NEW ISLAND AT SEA

(Continued from Page 2.)

persons have been unkind enough to hint that the $600,000 fee which goes to the successful architect may be largely responsible for the criticisms of disgruntled competitors. As a matter of fact, however, the chief cause lies in the fact that the successful plans call for a round building, patterned somewhat after the Coliseum of ancient Rome, a type practically unknown in this part of the world. Ever since the award was made criticisms have been pouring in pointing out all sorts of real or fancied defects. A round building is wasteful of ground, say many, an important factor in a locality where the value of an acre runs into the millions. Other alleged defects are that the round building is not well adapted to lighting, that it is wasteful of space, expensive to build, and finally that it would not harmonize with the other buildings around it, which are generally rectangular in shape. As a matter of fact, New York never having had a business building of this shape does not know quite what to make of it, and it is probable that the controversy will rage fiercely before the matter is settled.

* * *

Sons-in-law throughout the country and daughters-in-law as well will undoubtedly be interested in a decision rendered here to the effect that the wife and not the mother-in-law is the higher authority in the home—that is, of course, from a legal standpoint. As a matter of fact, this crushing blow to the mother-in-law system resulted from the complaint of a wife who left her husband's home and refused to return as long as his mother lived with them. In rendering this remarkable decision the judge said: "While the law does not compel the son to support his mother in his home, yet it recognizes his privilege so to do if circumstances make it necessary. The plaintiff in this case has not sufficient income to maintain two homes, and the mother has not the means nor ability to support herself. Under these conditions he is justified in providing a place for her in his own home, provided she recognizes that place and keeps it. Thus she can have no say whatever regarding the management and control of the home; this belongs to the wife, and if the husband's mother makes discord where there should be harmony, interferes with the wife's control and management, even at the request of her son, or by her own improper conduct and thoughtless language makes the home unpleasant and distressing to the defendant, then the wife will be justified in leaving her husband and requiring support from him elsewhere."

* * *

The remarkable steps which have been made in this city in the education of blind children have just been evidenced by a striking report showing the progress of those in the public schools where they come into active competition with normal children. Entirely aside from institutions devoted solely to the education of the blind, the lower grades of the public schools now contain no less than 145 sightless pupils who are being taught to do and say and learn all that their more fortunate brothers and sisters are doing and saying and learning. Members of the same classes, where they are given the very same tasks and are judged as severely, the blind children are proving themselves remarkably proficient, eager and quick. According to Miss Bingham, who has charge of the work for the blind pupils in the Board of Education, there are plenty of examples of these little unfortunates who are actually leading their classes. "There is no partiality about it," maintains Miss Bingham, "for we mark them just as strictly as we do the other children. They are all in the same room, the sighted and the blind. We make no distinguishing segregations. We make them forget that they are blind. When the others have their spelling lesson the blind children have their spelling too. There is nothing that we cannot teach them all simultaneously excepting penmanship and drawing." Even in athletics the spirit of equality is being developed and one blind boy who is an active member of the public School Athletic League actually participates in many contests.

ENGLISH POLO CHAMPION

Owing to Injury He Cannot Meet Americans

London, April 29.—Walter S. Buckmaster has resigned the captaincy of the English polo team which is to compete with the American team for the international polo cup on Long Island in June. Buckmaster was injured in a practice game, April 13th. Captain Lockett, of the Eaton Hall team, had been invited to replace him.

OVERCOME BY GAS FUMES

Workmen Installing A Refrigerator Plant Have Narrow Escape at Kinston—Rain Extinguishes Forest Fire—Notes

(Special Star Correspondence.)

Kinston, N. C., April 29.—While at work installing a refrigerating plant in the meat market of P. A. Hooker, on North street, O. C. Eubanks, an erecting engineer employed by the United Refrigerating and Ice Machine Co., of Kenosha, Wis., and Stonewall Westbrook, of this city, a helper, were overcome by ammonia and gas fumes.

West was unconscious for several hours, and Eubanks for some time. A large gasoline engine used in the plant was being tried out, and when a leak occurred in a connection the ammonia gas and the fumes from the gasoline united and overcame the men, who were overheated from strenuous labor. The plant is located in the basement of a two-story building, and Eubanks staggered up the steps to the first floor and fell, unconscious. He was carried to the street, where he regained his senses after a few minutes in the fresh air. He inquired about his helper, and urged those who were aiding him to get Westbrook out. The rescuers found the latter prostrate in a corner of the dark basement. The faces of both were badly scorched by the ammonia gas. Westbrook was carried out of the building raving, and temporary treatment failed to restore him. He was taken to his home and remained unconscious from 5:45 in the afternoon until nearly midnight. The engineer returned into the plant and was overcome a second time by the deadly fumes, being carried again to safety.

Rain yesterday extinguished a forest fire of large proportions which raged in the section between Albritton and Noble's Mill, several miles from here, but not until it had burned off a considerable area of the most valuable timber lands in this part of the State. The damage was considerable, but cannot yet be estimated. The timber was exceedingly dry from the several weeks' drought, and a spark from a passing locomotive is believed to have fired it.

Judge Whedbee, of the Superior Court, has appointed G. V. Cowper, of the Kinston bar, referee in the matter of the sureties of the cashier against the Bank of Columbia, N. C., the amount involved being about $6,000. The Columbia bank case attracted considerable attention in the State several years ago. The case is from the First district.

THE PULL TOGETHER IDEA

(Greensboro News.)

In any business there must be cooperation between the working force; the attitude that a man has toward his work is in many instances the secret of his success or failure. A man may think that he can "fool the boss" and he may do so a while, but he may rest assured that he will be discovered.

The man who wants to play out of work, instead of seeing how much work he can do, is the man who will not turn his hand, in case of emergencies, to assist some other department other than the one he may be employed in, is another of the kind whose attitude will profit him little in the long run. In a trade journal is the following interesting story on the "pull together idea."

But one idea that Jim took with him to Kansas and which has made good for him is told by him in these words

"When I went there I made up my mind that everyone in Jim Thompson's store would pull together for the good of the business.

"My first clerk was my wife. We pulled together alright, and our business grew. Now I have a dozen clerks and as far as I know they all work together well.

"It takes a lot of work, push, ideas, good values, and good service to make a store a success. But none of these is more important than everyone pulling together for the good of the store.

"If any of our clerks find they can't be happy with the rest of the crowd, we advise them for their own good to look for another position.

"There's a big difference between a store in which all of the clerks pulll together and one where they pull the other way. You soon notice it in the sales.

"When a clerk joins our little store family, we make him or her a present of an attractive card on which are printed these words:

Pull Together.

There is room in this business for all of us. Therefore ask assistance when you need it, and be always willing to assist others.

If you ever feel you must say something against a co-worker, don't say it out loud.

Read this card often."

Jim says this card has done much for his business and for his clerks.

On your ability to get good results for the store, depends your earning power.

And whatever you do, and wherever you go, your ability to get results will depend much upon your willingness and ability to work with others.

The head of the house always knows who the willing ones are. In his desire to have all work for the good of the store he knows who can be depended upon.

The sales person willing to co-operate with the rest of the staff and always willing to co-operate with the management usually accomplishes more, and gets the best out of the day's work.

Ask yourself this:

"What is my attitude toward this store? Am I working with the store or simply working in the store? Am I working with the other members of the store force, or simply working away on my own little island without trying to co-operate with others for greater results?"

TO CURB NOISE MANIAC

Writer Would Make Unlawful Needless Blowing of Horns

New York, April 29.—A writer in the May issue of "Motor" out this week, says too little thought in the framing of automobile laws has been given to reduction of noise and prevention of accidents through the proper regulation of automobile warning signals.

In discussing the problem from a standpoint of noise, the author declares that only a small element among motorists misuse their signals. "Some offenders err through thoughtlessness or carelessness but the majority of those who make unnecessary noise with their signals are of the same type as the joy-rider; and like him ought to be suppressed at every opportunity without the great majority of law-abiding automobilists being made to suffer for their sins.

"In the past two years there has been an active campaign in progress to regulate the use of automobile warning signals; to legally demand the use of adequate signals and to restrict the use of such signals except as warnings of danger.

"The failure of motorists to use signals in their true function gives a wrong impression to the non-motoring public which is largely in the majority. Motorists should learn the results of misusing their warning signals. It is equally necessary that the non-motorists should understand that the misuse of a warning signal in no way detracts from the general benefit of such a signal when it is properly used. Once this fact is understood many of the disturbing conditions that constantly operate to create antagonism between motorist and non-motorist would be removed.

"From time to time the question is raised, 'can automobile drivers be taught to use their signal properly?' Most drivers do this very thing. The trouble is the deliberate noise-maker makes so much noise he gives the impression that a far greater number of persons misuse their signals than are guilty of the offense. The remedy lies in the vigorous punishment of the noise-maker of unnecessary noise as a disturber of the peace."

THE FOREST RESERVE

New Federal Purchase on Mount Mitchell and Its Import

Washington, April 29.—Approvila of purchase of approximately 11,000 acres on the eastern slope of Mount Mitchell by the National Forest Reservation Commission is, it is pointed out, evidence that the work of this commission will continue without change though its membership is partly new. Secretary of War Garrison, Secretary of the Interior Lane, and Secretary of Agriculture Houston have automatically replaced Secretaries Stimson, Fisher and Wilson. On th eother hand the four representatives of Congress, Senators Gallinger, of New Hampshire, and Smith, of Maryland, and Representatives Lee, of Georgia, and Sawley, of Oregon, hold their places on the commission which has now approved the Mount Mitchell area. The purpose of its purchase is protection of the headwaters of the Tennessee river.

The area takes in a section on the eastern slope of the mountain, which is the highest peak in the eastern United States. Mount Mitchell gained its name from the fact that, many years ago, Professor Mitchell met his death near its top while alone on an exploring expedition.

The tract to be acquired includes the headwaters of the South Toe river, an important tributary of the Nolichucky, which in turn flows into the Tennessee. It is covered by a valuable stand of hemlock and hardwood timber.

Altogether, in the Mount Mitchell area the government has in course of acquisition about 37,600 acres of the 500,000 now approved for purchase in the Eastern States. Of this 500,000 acres, about 90,000 are in the White Mountains, New Hampshire. The rest are in the Southern Appalachians, in Virginia, North Carolina, Tennessee and Georgia. At the time the Mount Mitchell area was approved areas were also approved in Tennesse and in New Hampshire.

REVIVAL AT WILSON.

Forty Additions to Church—Commission of Public Works.

(Special Star Correspondence.)

Wilson, N. C., April 29.—The revival meetings in progress at the First Baptist church for the past two weeks closed last night. During the meetings the church received 40 additions and one remarkable fact was the large number of young men who were converted. Rev. T. W. Chambliss had the assistance of Rev. W. L. Walker, of Atlanta, and Mr. E. L. Wolslagel, of Asheville. Mr. Walker made a splendid impression on Wilson as one of the strongest preachers ever heard here. Mr. Wolslagel is the best singer ever brought to Wilson in a series of meetings. Mr. Chambliss, the pastor, has been sick throughout the series of meetings, but was on his feet and in the work. At the closing service 17 were baptized and others will receive the ordinance later. Messrs. Walker and Wolslagel go to Mount Airy for a meeting next Sunday. Mr. Chambliss left tonight for a week's rest in the Blue Ridge.

The new commission of Public Works, created by the recent amendment to the charter of the town, has taken the oath of office and will have entire charge of the disbursements of the proceeds of the recent bond issues, amounting to $160,000 for light and street improvements. The board consists of D. S. Boykin, chairman; E. A. Darden and Ernest Deans.

The recent sale of two pieces of residence property shows something of the value of Wilson real estate. The Green place on Nash street sold to George L. Morgan for $9,000, and W. E. Batts paid $5,550 for the property on the corner of Lee and Rountree streets.

FOREIGN TOBACCO BUYERS.

Little Competition Between Nations in American Market.

Washington, April 29.—E. M. Matthewson, a tobacco expert of the Agricultural Department, today told the Congressional Committee investigating how foreign monopolies buy tobacco in the United States that there was little competition between Austria, Italy and France because they bought a distinct type. Those three countries, he testified, bought through their consular agents, while Germany and Great Britain bought through agents of private manufacturers. Of the Virginia crop he said, Germany took 8,000,000 pounds a year; Great Britain 7,500,000; Austria 5,000,000; Italy 4,000,000, and France 3,000,000.

"Fairy Moon."

It is an interesting little song and it will be illustrated. Hear Mr. Bastable sing it today—Grand, of coures.

ATLANTIC COAST LINE

¶ Personal & other Items From General Offices Here

Mr. Ray Hunt, of the Traffic Department, is spending a few days in Atlanta.

Mr. J. L. Carmany, of the Interline Bureau, is visiting relatives in Roanoke.

Mr. Earle F. Penny, of the Relief Department, is recovering from an operation performed last Saturday.

Mr. P. M. Rivenbark, of the Freight Claim Department, has resumed his duties after a six weeks' illness.

Miss Jeannette McDougall, of the Auditor of Receipts office, has returned to her work after several weeks' illness.

Miss Frances Symmes, of the Auditor of Freight Receipts office, spent Sunday in Newbern, the guest of her brother, Mr. Courtland Symmes.

Mr. R. W. Parker, of the Engineering Department, left last night for New York whence he will sail Saturday for his home in England, where he will spend the next four months with his family.

Although no arrangements have been made for a game this Saturday the Coast Line team is practicing in hopes that the negotiations pending will result favorably. Either Charlotte or Raleigh will be the attraction this week.

A great deal of comment was heard in the office on Monday morning regarding the car service on rainy days. As a rule in bad weather it is almost impossible to get to work in a reasonable amount of time and on this morning in particular the residents on the southern end of the belt line were greatly delayed in their arrival.

A large number of the clerks in the office have made arrangements to spend the Summer at Wrightsville and are awaiting anxiously the decision of the Tidewater Power Company relative to the special commutation rates for residents of the beach. A decrease in the present high rate would be of great benefit to the clerks.

Mr. E. C. Watkins, of the Revising Bureau, left Monday night for Richmond, where he will be married today to Miss Marie Gunner, of that city. Mr. and Mrs. Watkins will return to this city after a short honeymoon and take up their residence on Market street.

Mr. Edward C. Bessellieu, of the Comptroller's office, leaves this afternoon with Mrs. Bessellieu and children, Parra Lee and Cecil, for a short trip to Florida, where Mr. Bessellieu will superintend the development of some property which he recently acquired in the Florida farming country. Returning they will spend the weekend with friends in Savannah.

The many friends of Mr. A. L. Vann, the traveling inspector in the Freight Traffic Department, will be grieved to learn of the death of his wife, who passed away on Monday night. Although Mrs. Vann had been seriously ill and her death was not entirely unexpected the news came as a great shock to Mr. Vann's fellow employes who will sympathize with him in his bereavement. The funeral service will be held at noon today in Mrs. Vann's old home at Salemburg, N. C.

G. P. R.

UNION PACIFIC DISSOLUTION

Attorneys Want More Time to Comply With Decree

Washington, April 29.—Attorneys for the Union Pacific filed today with the Supreme Court their brief in reply to Attorney General McReynolds' objections to a longer extension of time than July 1st for an agreement upon a dissolution plan. The railroad lawyers contended that to allow only until July 1st and no further extension would be inadequate, and renewed their plea to have the court's mandate modified to permit the Circuit Court to determine the question. Public interests, the attorney declared, would not be affected in the slightest degree by any delay in the ultimate disposition of the stock.

"In view of the exceptionally large amount of stock to be disposed of," said the briefs, "the manifest difficulties of the problem, and the collateral objects of the government as indicated by the first plan submitted to the District Court, and as intimated by the memorandum of the attorney general upon this motion, it would seem to be most unfortunate to permit this case to get into a condition in which neither this court nor the District Court would have power to extend the time for working out a satisfactory plan for dealing with his complex situation.

"The only adequate relief which can be afforded by this court is either an extension of time for a long period, or, as prayed in the pending motion, a modification of the mandate committing the matter of time entirely to the discretion of the District Court. A limitation of such extension to the first day of July, 1913, amounting to an extension of only 50 days without the possibility of a further enlargement of the time, judged in the light of the difficulties already encountered by petitioners in their attempts to prepare plans acceptable to the circuit judges and to the attorney general, will probably constitute no relief. Such a limited extension would certainly be inadequate if the attorney general intends, as his memorandum intimates, to endeavor in connection with the present dissolution, to bring about 'a state of affairs which will render unnecessary certain troublesome litigation now in contemplation.'

"The circuit judges of the Eighth Circuit who are familiar with the details of the dissolution proceedings herein are entirely qualified to determine what time, if any, further should be granted. There appears to be no justification for the suggestion that the circuit judges ought not to be trusted with the exercises of discretion in the matter."

MARRIAGE A SURPRISE.

Editor Motte Took His Friends Unawares—Burgaw News Notes.

(Special Star Correspondence.)

Burgaw, N. C., April 29.—Burgaw people had a surprise proper this morning when it was announced that Editor Motte had been married. He had quietly secured the services of Rev. P. L. Clark to perform the ceremony and asking two or three friends to go with him to witness a paper, met his bride at home where the ceremony was duly performed, the paper which the friends were to witness being the marriage license. The happy bride is the charming young daughter of Mr. Joshua Pierce, living about a mile from town, and she has recently been employed in the dry goods store of Messrs. W. D. Croom & Bros. Co. Mr. Motte is the owner and editor of the Pender Chronicle, having succeeded to the sole proprietorship on the death of his father, the late Benj. Motte last Fall. The happy couple left on the northbound train for a bridal trip to New York and other points.

A party will be given at the home of Mrs. Bruce Williams on Friday evening by the Daughters of the Confederacy, at which time a silver offering will be taken up for the monument fund.

There has been very little talk about the good roads election to be held shortly in this township. The question of a bond issue, or a special tax or neither will be voted upon.

TRAGEDY IN GREENE

Claude Goff Killed by Cousin for Improper Advances to Wife

(Special Star Telegram.)

Kinston, N. C., April 29.—Report today from Snow Hill tells of the killing in Greene county of Claud Goff by his kinsman, Joseph Goff. The Goffs were constant friends and almost inseparable, but were under the influence of intoxicants at the time of the slaying.

The men sat from 10 o'clock in the evening until midnight in the home of Joseph Goff. At 12 Joseph bade Claud good night and went to the dining room, some distance from the dwelling house to eat. Upon returning he saw through the window Claud making improper advances toward his wife, who was attired for the night and seated before the fire, having the care of a sick baby which was on a bed in the room. Not heeding the repulses of Mrs. Goff and the remonstrances of Joseph who ordered the offender from his house, Claud angrily questioned the right of the husband to interfere with bis conduct, and started to attack the latter. Joseph seized a shot gun and fired at Claud, inflicting fatal injuries. He died at 9 o'clock in the morning following. Joseph sent neighbors after a physician and the sheriff, five miles distant. The magistrate required only $600 bond of the slayer which the coroner's jury deemed sufficient. The Goffs were cousins and well known farmers of Greene county.

GLIMPSE OF DAY IN CONGRESS

Amendments to Tariff Bill Voted Down—Currency Bill Ready

Washington, April 29.—The following is a summary of the day in Congress:

Senate

Not in session, meets Thursday.

Joint Congressional Committee began investigation of foreign buying of American tobacco.

Chairman Owen, of Banking and Currency Committee, announced committee would formulate its currency reform plan Friday.

Senator Dupont's resolution to reveal number and employment of all retired army officers agreed to by Military Affairs Committee.

House

Met at 11 A. M., and began reading of tariff bill schedule by schedule under five-minute rule for amendment.

Representative Lindburgh introduced a resolution to bar members of the House interested in banks from serving on Banking and Currency Committee during preparation of currency reform legislation.

Completed reading of chemical schedule, all amendments having been voted down.

Recessed at 6:15 P. M. until 7:30 P. M.

CAUSE OF IMPURE BLOOD

Druggist Tells of Best Remedy.

Pure healthy blood is a most essential factor to good health.

Poor, thin, devitalized blood may be caused by a weakness of the digestive organs, an accomulation of waste matter in the system, an inactive liver or lack of exercise.

Whatever the cause the best remedy we know is our delicious cod liver and iron tonic, Vinol. It will purify and enrich the blood, tone up the digestive organs, give you a hearty appetite and create strength.

A case has just come to our attention from Schenectady, N. Y. Mrs. Hattie Hall says: "I was forcibly reminded that my system was run down and my blood in bad condition by an abscess forming in my side which required treatment for several weeks. Under the regular use of Vinol to purify and enrich my blood and build up my strength this was soon healed, and my general health was much improved.

If you have the slightest indication of poor blood take Vinol. If it fails to help you we will give back your money. Robert R. Bellamy, druggist, Wilmington, N. C.

AS TO SCHOOLS.

Editor Star:—In a few days we are to express our choice for or against school bonds in this county. Education is something which not only interests us, who have small children but also the taxpayer who has no little ones. First, I like to see 10 months compulsory schools all over the State, not alone in favored cities, but in the rural districts as well. Don't say to the country boy or girl, your share of the school tax money is so much per capita. You have to make out with one teacher to 30 or more scholars in all grades from the first to the eighth. But remember, the population of the cities is recruited from the country, so give the country boy a better chance; he will make a better citizen when he casts his lot with the boys in the city later on.

Secondly, I like to see a corps of trained men teachers well paid. I say well paid so that the calling will draw the best talent and hold it there for a lifetime. Of course, it will cost money, but it will pay big dividends, give a boy practical education, I say practical, don't educate him away from honest labor of any kind, and you can rest assured he will hold his own in the struggle for existence when he is thrown on his own resources.

Yours truly,

WILLIAM GREGERSEN.

CRASH ON RAILROAD.

Two Cars Demolished in Collision at Bristol.

Bristol, Tenn., April 26.—Two cars were demolished and the passengers severely shaken up when a fast moving freight car crashed into a Virginia & Southwestern passenger train on Bristol yards of the Norfolk & Western Railway at 6:30 o'clock this evening. The train had just arrived over the Virginia division and was bound for the union station. No one was injured. The freight car was running at a speed of 18 miles an hour, when it struck the side of the passenger train.

FOR ASSAULTING CONGRESSMAN

Washington Banker in Contempt of House of Representatives.

Washington, April 26.—The special House committee which investigated the assault by Charles C. Glover, a local banker, on Representative Sims, of Tennessee, reported today it had found Glover in contempt of the House and recommended that the speaker issue a warrant for his arrest to answer that charge. Chairman Davis, of West Virginia, said he would call it up for action as soon as the House had disposed of the tariff bill.

THE SOUTHPORT PRIMARY

Mayor Price Furpless Renominated—Low Temperatures—Arrangements for Rector—Other News Notes.

(Special Star Correspondence.)

Southport, N. C., April 29.—Last night at the court house was the final meeting of the citizens of Southport to complete the nominations for the municipal ticket, this last being the nomination for mayor.

The meeting was largely attended, the fact of there being two candidates causing the increased interest. The present mayor, Mr. Price Furpless, was a candidate, and also Mr. C. N. Phillips was placed in nomination. On a ballot being taken, the vote was, Furpless 82, Phillips 18, and on motion of the defeated candidate, the nomination was made unanimous, Mayor Furpless has given an excellent administration during the past two years and the re-nomination was an endorsement to the policies he has pursued.

On last Wednesday, Thursday and Friday nights there were nominations made for aldermen in the three city wards, these being First Ward, Dr. Keith and J. F. Drew; Second Ward, L. J. Pepper and J. B. Church; Third Ward, C. E. Gause and Julius Weeks. The election will be held next Tuesday.

This morning the temperature was 41 degrees, the lowest at this season in a long time. There was only a light rainfall preceding the change in temperature.

The recent plan that was matured to secure a rector for St. Phillip's Episcopal church of this place, and the engagement of Rev. John L. Moody, of Fayetteville, to serve, as has been previously noted in this correspondence, has had to be given up, owing to the ill health of both Mr. Moody and his son, which makes his coming here an impossibility.

Next Sunday, May 4th, there will be services at St. Phillip's, at which Bishop Robert Strange will officiate, and a class for confirmation be held.

Charleston, S. C., April 29.—Richard S. Whaley, a Charleston lawyer, was today elected member of Congress from the first South Carolina district to succeed the late George S. Legare. He was not opposed. The election was in ratification of Mr. Whaley's recent nomination in the Democratic primary. A very light vote was cast.

CHALMERS · MOTOR · CO · Detroit, Mich. U.S.A.

This monogram stands for all you can ask in a motor car

TIME TELLS—*or*

things that Words Won't tell

THERE are some things about a motor car that words won't tell. Words are simply labels—and it is one of the shortcomings of our language that words don't always express the difference between things.

For instance, the same words are used to describe motors and motor sizes. In words, two motors of "4 1-4" bore" and "5 1-4" stroke" are the same. But between them there may be a hundred differences. Differences in power; in economy; in smoothness; in reliability. Words won't tell those differences. Even blue prints won't.

And so on all through the car. "High grade bearings," "springs of finest quality," "channel section steel frame"; "full floating rear axles." All cars have them, it seems from the announcements. But the differences which we know to exist in the cars themselves words won't tell.

But *Time* Tells

Time is the great teller of truth. Time tells the difference between good things and ordinary things. Time gives the real verdict on books, pictures, buildings, men—and motor cars. Time brings out the differences that cannot be seen on the surface—the differences that **words won't tell.**

Please bear that in mind in choosing your motor car. You are not buying it for a year only—but for five, six, eight years—or maybe more.

Perhaps several cars look about alike to you now. Their specifications, motor sizes, wheels, tires, axles and equipment read about the same. But look for the unseen differences—the differences that will be apparent **with use.**

How will you know? Well, one way is to look over the list of cars built five or six years ago. Note the cars built then that are still running and giving satisfaction today. You will find among them lots of Chalmers cars.

Here are ten Chalmers cars which have been driven more than 1,000,000 miles—an average of over 100,000 miles each.

Owner	Address	Mileage
Fred Roberts	Corpus Christi, Tex.	80,000
Geo. Stump	Independence, Kas.	140,000
Louis Pacheco	Oakland, Cal.	122,000
Dr. F. S. Cuthbert	Kingman, Ind	75,000
A. D. Williams	Buffalo, N. Y.	100,000
W. H. Caffery	Kansas City, Mo	125,000
J. D. Hand	Las Vegas, N. M.	100,000
E. Watson Gardiner	Amsterdam, N. Y.	78,684
R. L. Holt	Burlington, N. C.	120,000
W. C. Kramer	Joplin, Mo.	75,000
		1,015,684

And at the Chalmers factory we have records of many more cars which have been driven 25,000 to 50,000 miles and are still giving satisfaction.

Time has told the difference between these cars and less efficient ones. And so you can feel absolutely safe in selecting a Chalmers.

Your Chalmers is Worth $1,000 More but Costs Only $300 to $500 More.

Human ingenuity and ability simply can't build as good a car to sell for $1,000 to $1,500 as can be built to sell for $1,800 to $2,500.

You know you can't get an all wool tailor-made suit for the price of a ready made semi-wool suit. And you can't get a really good automobile for the price of a cheap automobile.

Values seek their levels—in automobiles as in everything else—50,000 buyers would not every year pay the difference for high quality, medium priced cars of various makes, if they were not worth the $300 to $500 extra which they cost.

You know, of course, you would rather have the better car. If its price and the price of the cheaper car were the same you wouldn't hesitate a minute.

The only thing that keeps you from signing the order for the better car is simply the writing of the check for a few hundred dollars more. That's all.

Difference in Price Doesn't Express Difference in Value

Once you have signed the check—made the **decision**—you will forget the money. Here's the proof. Just sign the check. Then the first question you will ask the salesman will be "How soon can I get the car?" Just that. You'll forget the few hundred dollars as soon as you have placed your order.

But the car you buy you can't forget. You'll have that with you every day, and unless it is a good car you will have it mighty much on your mind every day.

The difference in cars is only partly expressed by the difference in price. The **real difference** is the **difference in value.** A genuine quality car will cost you only $300 to $500 more than a cheap priced car. It will be worth fully $1,000 more—in the service and satisfaction you get out of it. This isn't theory; it is a fact, as any man who has **owned** automobiles for five years will tell you.

Do not let the supposed "saving" of $300 to $500 in the price of a cheaper car blind you to the greater value you can get in a Chalmers. Decide now.

Pickard-Bleecker Auto Company, Wilmington, N. C.

Gibbes Machinery Company, Columbia, S. C., Distributors.

..Theatrical..

Friday night Wilmington people will be presented with the greatest musical event of years, in the special appearance in this city at the Academy of Music of Sig. Allessandro Bonci, the world's famous lyric tenor, who is making a short concert tour.

Wilmington is indeed fortunate in securing a recital from Bonci and musical circles are agog over the announcement of his appearance. It will not only be a notable society event, but one in which all Wilmingtonians should take an interest, as the hope of securing other celebrated artists alone lies in proper appreciation of those few who may be induced, by reason of big guarantees, to journey to Wilmington. Bonci will not appear alone, but will be assisted by the noted soprano, Miss Martina Zatella, and the equally well known pianist, Sig. Francini. So this adds to the importance and brilliancy of the event. There is even more interest than this, too, because the appearance of Bonci will come as a benefit for the North Carolina Sorosis, the proceeds going to the club building fund of this great organization. The reservation of seats for those who hold exchange tickets started this morning at Plummer's, and will be open to the general public tomorrow. The scale of prices is as follows: Box seats, $2.50; all seats downstairs, $2, save the last three rows, which are $1.50; first three rows in the balcony, $1.50; next three rows $1.00, and general admission 75 cents.

There is one branch of opera to which the management might properly pay a little more attention. It is the "bel canto" department, represented by such an artist as Bonci. The modern tendency in opera is to drift away from purely vocal delight to the more forcible appeal of histrionic declamation. A large part of our public, however, still hungers for refined singing, and it would be good policy on the part of the various opera companies to recognize that appetite.

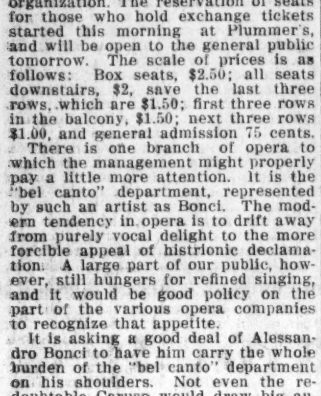
It is asking a good deal of Alessandro Bonci to have him carry the whole burden of the "bel canto" department on his shoulders. Not even the redoubtable Caruso would draw big audiences in company with the singers the little tenor has been compelled to drag along in the past. So rare an artist as Bonci ought to have associates who are in the same class as he. Thus his value would be enhanced, instead of injured; thus he would prove a most profitable, useful and delightful member of the company. There is no Sembrich now to share the soprano honors of a performance with Bonci; there is no basso like Plancon to give brilliancy to a cast. And where is the baritone whose style of singing blends well with Bonci's?" Would it not be an excellent plan to look for three companion "stars" for Bonci, luminaries able to supplement and sustain his power of attraction? Can no successor be found for Sembrich, none for Plancon?

It does look as though Bonci would have to carry out his long cherished plan of forming his own opera company, with him at the head and really competent stars as his associates.

At the Grand Theatre.

The Grand Theatre again today will be one of the meccas towards which hundreds of Wilmington people will journey for their daily rest and recreation and as usual no one will be disappointed. Mr. Bastable, the new singer, will have for his number that very pretty little song, "Fairy Moon". It is illustrated and will prove a winner with enthusiastic patrons of the Grand.

The pictures today, too, will be of the very best and highest class. There



MR. BASTABLE

New Soloist at The Grand Theatre, This City

is a Lubin, "The Evil One," and it will prove of absorbing interest. It is an indian story and there is a very pretty ilttle love story which will find a response in the hearts of all with a penchant for the romantic. Then there is to be another topliner for today and it will give variety to the general bill in that it is an interesting comedy-drama of merit. An old maid figures in the love-making of her sister and what results is a "caution". Fate, however, makes it all right in the end.

At The Bijou

The phenomenal is certainly happening these days at the Bijou. There seems to be no limit to the wonders the popular Bijou is offering these days. Special two-reel release films are abundant and following close on the heels of the big success of yesterday, comes another today, and it will be the greatest of all yet presented and the equal of any that could be presented, even when the film manufacturers scratch their heads and prepare the most stupendous of things. Today's film masterpiece—in two parts—is the Vitagraph's gigantic triumph, "The Strength of Men," and in the stellar roles will be presented that big favorite, Miss Edith Storey, and the clever actor, Mr. Herbert L. Barry. It is one of the greatest dramatics ever conceived and is produced on an elaborate and magnificent scale. The story abounds in thrilling incidents, but none surpasses in excitement and granduer a big forest fire, in which two men meet and battle with each other for their lives. One has his sight put out and the other has his legs broken. Then they make friends. The blind man carries the crippled one on his back, and together they escape the flames. It is a thrilling spectacle. There is a beautiful love story interwoven, in which charming Edith Story does some of her best acting.

Another superb film is also on today's Bijou programme in Selig's "Her Only Son," and there will also be plenty of new music and solid comfort. No, the price of admission has not been advanced. It is ever 5 cents.

GRAFT IN NEW YORK.

Trial of High Police Officers Who Bled Hotel Men.

New York, April 29.—Four high police officers declared by the District Attorney to have been figures in the "system" of police graft, were placed on trial in Supreme Court today, accused of conspiring for the perversion and obstruction of justice.

The defendants are Dennis Sweeney, James E. Hussey, James F. Thompson and John J. Murtha, all former inspectors. The specific charge against them is that they were in collusion to keep George A. Sipp, a hotel keeper, out of the State. Sipp had testified before the aldermanic committee that he paid graft for many years in a Harlem inspection district so the police would not interfere with his resort. Thompson, Hussey, Murtha and Sweeney, were in turn inspectors of that district from 1908 to 1912.

To keep Sipp out of the court's jurisdiction, according to Assistant District Attorney Clark's address to the jury today, the inspectors entered into an agreement to pay the hotel man $1,000 for one month's absence and $100 a week thereafter as long as it was necessary for him to remain away. Mr. Clark set forth further that the defendants agreed to pay $3,000 to Eugene Fox, a policeman, and to take care of Fox's family if he was sent to jail without confessing himself a collector of Sipp's tributes.

Fox confessed, however, and subsequently gave the grand jury testimony that corroborated Sipp and supplemented evidence on which the indictment of the four ex-inspectors is based.

The jury was completed within seven hours. Mr. Clark concluded his address to the jury tonight and adjournment was taken until tomorrow. The defendants were denied bail and were locked up in the Tombs.

FARMERS HELP BUREAU.

Agricultural Department Laying Plans for New Work.

Washington, April 29.—Plans for the operation of the "Rural Organization Service," a new branch of the Department of Agriculture, which is to take up the question of better marketing, social welfare and other problems connected with the improvement of the farmers' financial, physical and social life, were discussed today at a department conference. Secretary Houston called into consultation Assistant Secretary Galloway, Dr. Thos. N. Carver, of Harvard University, who has been chosen to direct the new bureau; Senator Hoke Smith, Representatives Lewis, of Maryland; Rubey, of Missouri, and Ketner, of California; Dr. Wallace Buttrick, of New York, representative of the general education board, which is to work in cooperation with the Department of Agriculture in aiding the new movement; C. Harold Powell, of California, and a number of the Department's specialists in the marketing problems.

Dr. Carver spoke at length of the broad problems which the new bureau will have to solve. He declared himself in favor of the "extensive" as against the "pent-up" system of farming. The former, he said, had been the Anglo-Saxon system, while the latter was the Chinese method, although practiced also in Belgium where a population sustained itself on a comparatively small area.

DAUGHTERS OF REVOLUTION

President Advises Members to Consider Today's Problems

Philadelphia, April 29.—Delegates to the 22nd annual convention of the General Society Daughters of the Revolution, were urged to "let their ancestors remain under ground and devote themselves to the problems of the present," by the president general, Mrs. Clara Rogers Bleakley, in her address at the opening business session here today. More than 200 delegates representing 18 States were present.

Mrs. Sarah Weld Smith, chairman of the committee on patriotic work in her report urged that the general society take up the work of restoring or preserving from profanation neglected cemeteries, and suggested that old revolutionary burying grounds be located, charts made and all graves of patriots marked with government markers.

Mrs. Sussane M. Ihlsing, librarian general, suggested that a historical library be compiled by all the States an destablished in New York.

To The Young Expectant Mother

Women of Experience Advise the Use of Mother's Friend.

There is a certain degree of trepidation in the minds of most women in regard to the subject of motherhood. The longing to possess is often contradicted by the inherent fear of a period of distress.

But there need be no such dread in view of the fact that we have a most noble remedy in what is known as Mother's Friend. This is an external application that has a wonderful influence and control over the muscular tissues of the abdomen. By its daily use the muscles, cords, tendons and ligaments all gently expand without the slightest strain; there is no pain, no nausea, no nervousness; what was dreaded as a severe physical ordeal becomes a calm, joyful anticipation that has its inception such as our foremost teachers of Eugenics are striving to drill into the minds of the present generation.

In almost every community there are women who have used Mother's Friend, and they are the ones that recovered quickly, conserved their health and strength to thus preside over families destined by every rule of physiology and the history of successful men and women to repeat the story of greater achievement.

Mother's Friend is prepared after the formula of a noted family doctor by the Bradfield Regulator Co., 138 Lamar Bldg., Atlanta, Ga.

Write them for their instructive book to expectant mothers. You will find Mother's Friend on sale by all drug stores at $1.00 a bottle.

FURNITURE—BANKRUPT SALE.

In the District Court of the United States for the Eastern District of North Carolina.

In the matter of A. D. Rich Company, Inc., Bankrupt:—

Pursuant to an order, issuing out of this court, dated this 29th day of April, 1913, the undersigned will, on the 14th day of May, 1913, at 12 o'clock, noon, at the store of said bankrupt, No. 110 North Front Street, Wilmington, N. C., sell at public auction, to the highest bidder, for cash, all the stock of goods, wares, merchandise, horses, wagons and chattels, together with the accounts, furniture contracts and furniture leases and fixtures, belonging to the estate of the said A. D. Rich Company, Inc., Bankrupt.

No bid less than $13,200.00 will be considered. The highest bidder will be required to deposit 10 per cent., of his bid on the day of sale, pending confirmation of the same by the Court.

This the 29th day of April, 1913.

FREE CANAL TOLL QUESTION.

Senate Committee Decides to Postpone Action on Matter.

Washington, April 29.—By a vote of 13 to 1, the Senate Canal Committee today decided to put over to the regular December session of Congress all questions of Panama canal tolls, including the Senator Root amendment to repeal the free passage provision of the Pnaama law. Senator Brandegee voted against it.

Senators pointed out that the Democrats were committed to tariff and currency legislation at the extra session and that they would have enough to do to legislate on those subjects.

The overwhelming vote by which the committee agreed to the motion was taken to indicate that there would be no action on the tolls question for several months, unless President Wilson chooses to exert his influence to have it reopened.

Some Senators today considered it doubtful whether the President could cause the committee to change its mind unless there were new and pressing developments in negotiations between the State Department and the British foreign office.

LUMBERTON PRIMARY.

A. E. White Defeats A. P. Caldwell—Commissioners Are Named.

(Special Star Telegram.)

Lumberton, N. C., April 29.—In the town primary held here today, A. E. White was chosen Mayor over A. P. Caldwell, the present incumbent, by 83 majority. L. T. Townsend, Geo. L. Thompson and S. H. Hamilton were elected to serve for two years as Commissioners. Three Commissioners hold over. The election passed off quietly, each side working faithfully for their respective candidates.

GREY HAIR RESTORED TO YOUTHFUL COLOR

Why Have Grey or Faded Hair That Makes You Look Old

Why lose your good looks that youthful, natural colored hair always help you to keep? There is absolutely a need for it. COTTON MARKET WAS NERVOUS

April Futures Declined 2 to 6 Points —Spot Cotton Advanced Ten Points—Notes to Liverpool Increased

New York, April 29.—The cotton market was extremely nervous and unsettled today and there were violent fluctuations in May contracts. Generally speaking, old crop months were relatively firm on covering and predictions of heavy shipments from the local stock while later deliveries appeared to be influenced by favorable weather news, and reports of a good start with the new crop. Closing prices were steady at a decline of 10 points on April, an advance of ten points on May, and unchanged to 12 points net lower on other positions.

The market opened steady at an advance of 2 to 4 points on covering and buying for a reaction which was encouraged by steady Liverpool cables and revised estimates indicating that houses with Liverpool connections had stopped notices representing between 40,000 and 50,000 bales yesterday. It was also rumored that this cotton would be shipped out during the month of May and advances in ocean freight rates to Liverpool were attributed to the demand for this purpose while New Orleans also reported an advance in ocean freights to Havre as a result of engagements for the shipment of cotton taken up on May contracts in that market. There was plenty of cotton for sale around the opening figures owing to unfavorable European politics and the favorable average of new crop news and the market broke shortly after the call to a net loss of 2 to 6 points. At the decline there was a demand from May shorts, and with very few sellers of May around the ring, the price shot up very sharply during the middle of the day to a net advance of 23 points, and to a premium of about three points over July. Later positions responded only slightly to the old crop strength, however, and the market broke again in the late trading with late months making new low ground for the movement under a favorable review of the weekly weather report, renewed liquidation and heavy selling from both Southern and local sources.

Cotton; spot, quiet; middling uplands, 11.80; do. gulf, 12.05; sales, 200 bales.

Cotton futures closed steady.

STOCK MARKETS SLUMPED

Austria's Belligerent Attitude Towards Montenegro Makes Europe Doubtful—Important Stocks Reach New Low Level.

New York, April 29.—The pronounced weakness of European markets caused by reports of Austria's belligerent attitude toward Montenegro was of direct influence on the home market where prices were depressed sharply today. Many of the important stocks made new low records for the year with numerous losses on the day of 1 to 3 points. Pressure was heaviest against the international stocks, particularly Canadian Pacific which slumped seven points. Steel, the Harrimans, Reading and Amalgamated Copper displayed marked weakness.

The market continued to reflect absence of demand and susceptibility to pressure. Prices broke sharply in the early trading. American stocks in London, which had shown general advances weakened abruptly before the opening here and some of the early selling in this market was for foreign account. Before midday the list stiffened, but in the afternoon active selling was resumed, culminating in a vigorous drive during the last hour, which forced the market to low point of the session, selling appeared to be chiefly in the nature of bear pressure.

The quarterly statement of the Steel Corporation, which came out shortly after the close of the market, was less favorable than was generally predicted, total earnings of $34,426,000 comparing with forecasts of $36,000,000 to $38,000,000. While the average of prices received for steel was higher than in the December quarter the gain derived from this source was offset by extensive flood damage and the increase in operating expenses resultant on the advance in wages established February 1st. The expected announcement of an issue of New York City bonds was made today, the city offering $45,000,000 at 4 1-2 per cent. Outstanding issues were depressed by the announcement, some of them touching new low prices. The new bonds sold "when issued" on the curb at 100 1-2. For an issue of 4 1-2 in 1907, the city obtained an average of 102, and for a 1908 issue an average of 104. On account of present conditions in the money market, bankers predicted that the average for the new issue would be under 101.

Bonds were irregular. Low prices were made by some reorganization issues. Total sales, par value, $2,381,000. United States bonds were unchanged on call. Total sales stocks today were 545,000 shares.

DRY GOODS MARKET

New York, April 29.—The auction sale of carpets here today was well attended. Prices were generally higher than anticipated, and the buying on the first day was very active. Wide printcloths are easier and on a basis of 4 3-4 for 38 1-2-inch 64x60s. Silks are unsettled because of the difficulties of securing deliveries from mills. Yarns are quiet.

ELECTION NOTICE.

FOR BONDS FOR ROADS and BRIDGES

The Board of Commissioners of New Hanover County in accordance with the provisions of an Act of the General Assembly of North Carolina, passed at its 1913 session, entitled "An Act to empower the Board of Commissioners of New Hanover County to issue bonds for road improvement and to construct bridges," and by virtue of the power therein given, do hereby call and give notice of an election to be held by the qualified voters of New Hanover County on Tuesday, May 27th, 1913, between the hours of sunrise and sunset, to determine whether New Hanover County, North Carolina, shall issue $100,000.00 of its bonds, with interest coupons attached, to continue and complete the repairing, construction and improving the public roads and bridges in said County.

At this election the ballots tendered and cast by the qualified electors shall have written or printed upon them "For continuing and completing the construction and improvement of the public roads and bridges of the County," or "Against continuing and completing the construction and improvement of the public roads and bridges of the County."

All qualified electors who favor the issue of said bonds shall vote for "For continuing and completing the construction and improvement of the public roads and bridges of the County," and all qualified electors who are opposed to the issue of said bonds shall vote "Against continuing and completing the construction and improvement of the public roads and bridges of the County."

For the purpose of this election, as authorized by the said Act, the said Board of Commissioners have ordered, and do hereby order, a new registration for said election, and the following are designated as the polling places in the several townships, precincts and wards, and the persons hereinafter named have been appointed as the Registrars and Judges of Election in the said several townships, precincts and wards.

Cape Fear Township—Polling place, Ritter's blacksmith shop, Castle Hayne road; Registrar, W. H. Shearin; Judges of Election, W. S. Cooper and C. E. Kerr.

Harnett Township—Delgado, Barber shop, Delgado Mills; Registrar, F. C. Branch; Judges of Election, W. G. James and H. C. Blake.

Harnett Township — Seven-Mile Post; Polling place, Township house; Registrar, George T. Shepard; Judges of Election, Gerrit Walker and C. H. Alexander.

Harnett Township — Sea Gate; Polling place, Rogers' store, Sea Gate station; Registrar, Rev. A. C. Chadn; Judges of Election, G. W. Westbrook and Z. A. Sneeden.

Masonboro Township—Polling place, Piner's store, Whiskey Creek; Registrar, J. A. Farrow; Judges of Election, C. W. Bishop and J. A. Hines.

Federal Point Township—Polling place, T. J. Burnett's farm; Registrar, T. J. Burnett; Judges of Election, John A. Biddle and H. B. Williams.

Wilmington Township—First ward, Precinct No. 1—Polling place, Barding store, No. 818 No. 4th st.; Registrar, W. H. Bardin; Judges of Election, W. H. Cox and W. McD. Evans.

Wilmington Township—First ward, Precinct No. 2—Polling place, Engine house, 4th and Campbell sts.; Registrar, George W. Branch; Judges of Election, W. H. Howe and William Sheehan, Sr.

Wilmington Township — Second ward—polling place, Court house; Registrar, W. W. Hodges; Judges of Election, T. E. Sprunt and W. J. Meredith.

Wilmington Township — Third ward — Polling place, Gibelm Lodge, 8th and Princess; Registrar, A. G. Hankins; Judges of Election, Brooke French and John Hall.

Wilmington Township — Fourth ward — Polling place, Oldham's old store, Dock, between Front and Second streets; Registrar, W. P. Oldham; Judges of Election, W. P. Emerson and J. M. Stevenson.

Wilmington Township—Fifth ward, Precinct No. 1—Polling place, Market house, 5th and Castle sts.; Registrar, D. S. Reville; Judges of Election, J. J. Longlin and H. K. Nash.

Wilmington Township—Fifth ward, Precinct No. 2—Polling place, Engine house, 6th and Castle sts.; Registrar, G. W. Irving; Judges of Election, W. M. Creasy and D. J. Fergus.

The Registration books of each Township, precinct and ward will be kept open for registration of electors for twenty days preceding the day for closing the registration books, as hereinafter provided, Sundays excepted, between the hours of nine o'clock A. M. and sunset on each day, beginning April 24th, 1913; and said books shall be closed for registration at sunset on the second Saturday before the election, to-wit, May 17th, 1913; and on Saturday, the 26th day of April, 1913, and on the 3rd day of May, 1913, and on the 10th day of May, 1913, and on the 17th day of May, 1913, the Saturdays thereafter, the registrars shall attend with their registration books at the polling places of their respective townships, precincts and wards for the registration of electors.

The registrars will attend the polling places of their respective townships, precincts and wards with the registration books on the Saturday preceding the election, to-wit, May 24th, 1913, from the hour of nine o'clock A. M. till the hour of three o'clock P. M. when and where the said books will be open for the inspection of the electors of said townships, precincts and wards, and any of the said electors shall be allowed to object to the name of any person appearing on said books.

This, the 19th day of April, 1913, by order of the Board of Commissioners of New Hanover County.

M. S. WILLARD, Chairman.
Attest: JOHN HAAR Clerk.

"Pittsburgh Perfect"

The Adaptable Fence **For Poultry and Garden Use**

Among the 145 styles and sizes of "Pittsburgh Perfect" Fence shown in our new catalogue, the fence user can now obtain fencing ***perfectly suited*** to his ***particular*** requirements. "Pittsburgh Perfect" is the most adaptable, portable, durable and resultful of all wire fences, and gives absolute satisfaction because, coupled with our ripened manufacturing experience, it is the culmination of close and exhaustive study and investigation of farmers' needs along lines of up-to-date poultry and agricultural methods and equipment.

Open Hearth Wire like old time iron wire is used exclusively in "Pittsburgh Perfect" Fence and is heavily galvanized with pure zinc. All line and stay wires are

ELECTRICALLY WELDED

at every contact point, which makes it unequaled for toughness, strength and economy in weight and price.

Every Rod Guaranteed Perfect.

THE NEW CATALOGUE contains valuable information about wire fencing, and illustrates styles and sizes adapted to every FIELD, FARM, RANCH, LAWN and POULTRY purpose.
